...to **achieve the vision.**

Focus on **Achievability**

Let's talk about Achievability

- Cost vs. overall budget
- Type of funding

2. Parameters & Constraints

- Resource availability
- Level of empowerment

3. Human Resources and People Factors

- Commitment of resources
- Expertise, competence

4. Complexity Factors

- Type of work/Innovativeness
- Clarity of objectives and scope

3. Conforming

Set up appropriate **monitoring and control systems** to make the **right decisions** and **realign the program** if necessary.

Set simple intermediate objectives that are measurable and lead to the ultimate goal.

Practical Advice for PO Governance

- 1. Lead:** Formulate the strategy, clarify goals, align actions to vision and be prepared to reformulate the strategy.
- 2. Structure:** Create clear policies, scale down processes and procedures, ensure achievability and optimise effort.
- 3. Conform:** Set intermediate measures of success, gather meaningful data, collate and analyse.
- 4. Empower** people to make decisions on a daily basis and encourage first mistakes.
