Select	Reflect	Assess	Evidence
Choose to use a role profile as a starting point for your assessment or carry out the full assessment.	Take time to reflect on your career to date, thinking about the difference experiences you have.	Set aside quiet time to work through the assessment, the first time should take a couple of hours.	Gathering evidence to support your assessment is required, this is where most of your time for the assessment is taken up.

**The PMO Competency Framework**

If you'd like to use the PMO Competency Framework book whilst completing your self-assessment, it is available to purchase through Amazon and TSO.

You don't need the book to complete the assessment.

Use the information icon throughout the tool to access text from the book.
