Aim

The primary aim of the Competency Framework Working Group is to develop a PMO Competency Framework that can be used as a standard (and tailored if required) for PMO roles and responsibilities across all organisations, both in the public, private and third sectors.

The final deliverables must:

- demonstrate the embodiment of best practice in the development of competence frameworks
- demonstrate consideration and inclusion of current research and thinking in respect of PMO roles and competencies
- demonstrate applicability across geography and sectors through evidence from appropriate trials

Personas

James – Project Support Analyst

Jean – Head of Portfolio Office

Jonathan – Portfolio Governance Manager

Jenny – Project Administrator

Jeff – Portfolio Analyst

Jill – Programme Support

Jack – Head of Project Management Practice

Joanna – Project Management Line Manager

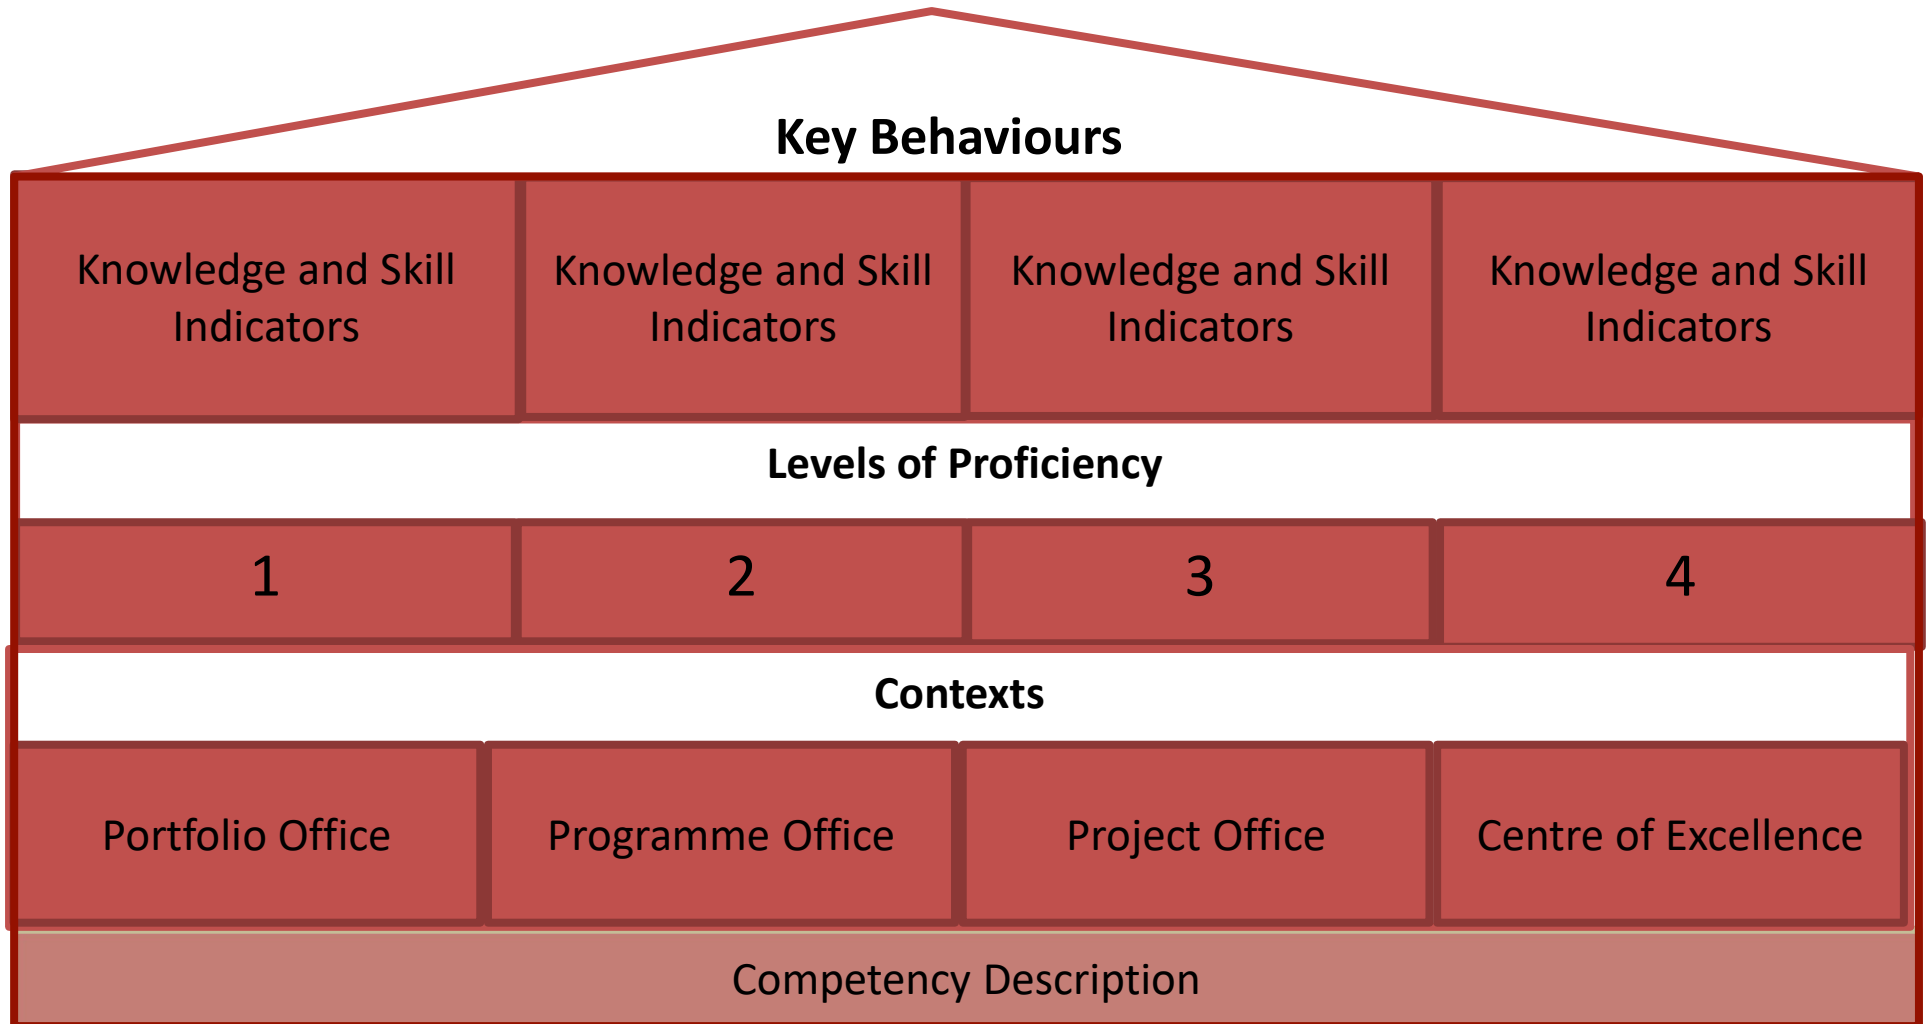

The Product Strategy

Create a PMO Competency Framework providing a standard and toolset to allow PMO professionals to understand, assess and develop the skills, behaviours and experience to achieve their PMO goals and career potential.

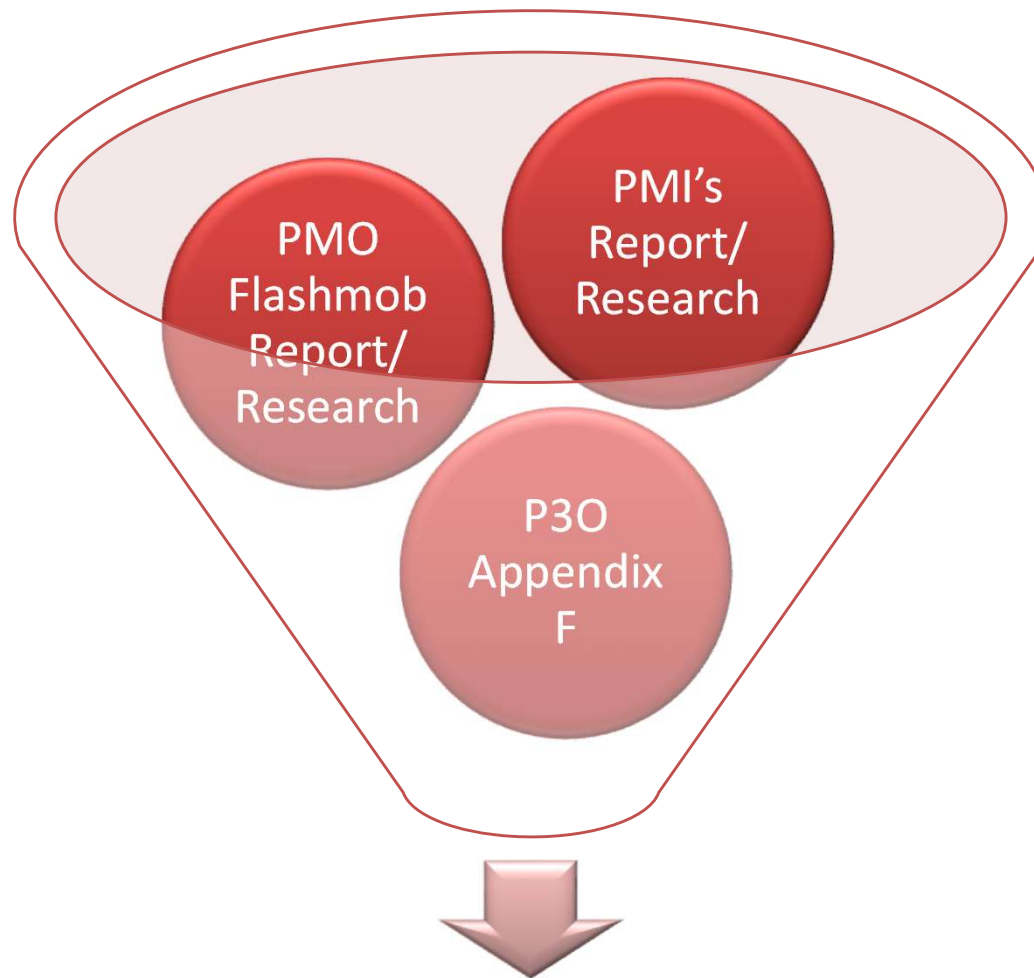

Self Assessment Tool Capable of querying and recording competence,
360 degree capability

The Plan

The Authoring Cycle

Time boxes will be used but flow based work selection by approved specialists from primary and secondary teams.

- Note:1: Strikeout for illustration only, competency will be transferred from board to board.
- Note 2: Off Specs /Errors step to be confirmed.
- Note 3: Need to estimate WIP limits
