

# PMO *Conference* LONDON 2023

How our  
Portfolio Management Office  
created a new standard for  
delivery

***Ian Finch ChPP RPP FAPM***

Head of Portfolio Management Office

***Creating a new delivery standard  
within a Framework ensuring the  
'best of both' organisations is retained  
when two Telecommunications giants  
merge***

# Learning

- 1. How creating a common purpose creates the foundations for successful transformation by enabling fast decision making that underpins rapid development and change**
- 2. How company cultures and maturity levels play a key role in the design and roll out of processes and tools**
- 3. The challenges of rolling out change amidst companywide change**
- 4. The safeguards and techniques deployed to ensure a successful launch and continued transformation**
- 5. The first year of our transformation - our Lessons Learned**

# **Background**

**Two telecoms giants O2 and Virgin Media came together as part of a joint venture between their parent companies Telefonica and Liberty Global.**

**The new company announced their senior leaders very quickly thereby enabling them to shape and bring together the former companies into a single organisation at pace.**

**The guiding principle in this was use the ‘best of both’ and ‘keep things simple’ to ensure the highest possible synergies were achieved.**

# Agenda

- 1. Our Journey from Legal Day one to the joint Framework Launch**
- 2. Our Continuous Improvement Journey**
- 3. Lessons Learned from the Launch and in our first year**

Governance & Process	12	Integral support / assurance of all tickets
<b>Total</b>	<b>50</b>	<b>378</b>

# Our Framework Journey

02

Virgin Media

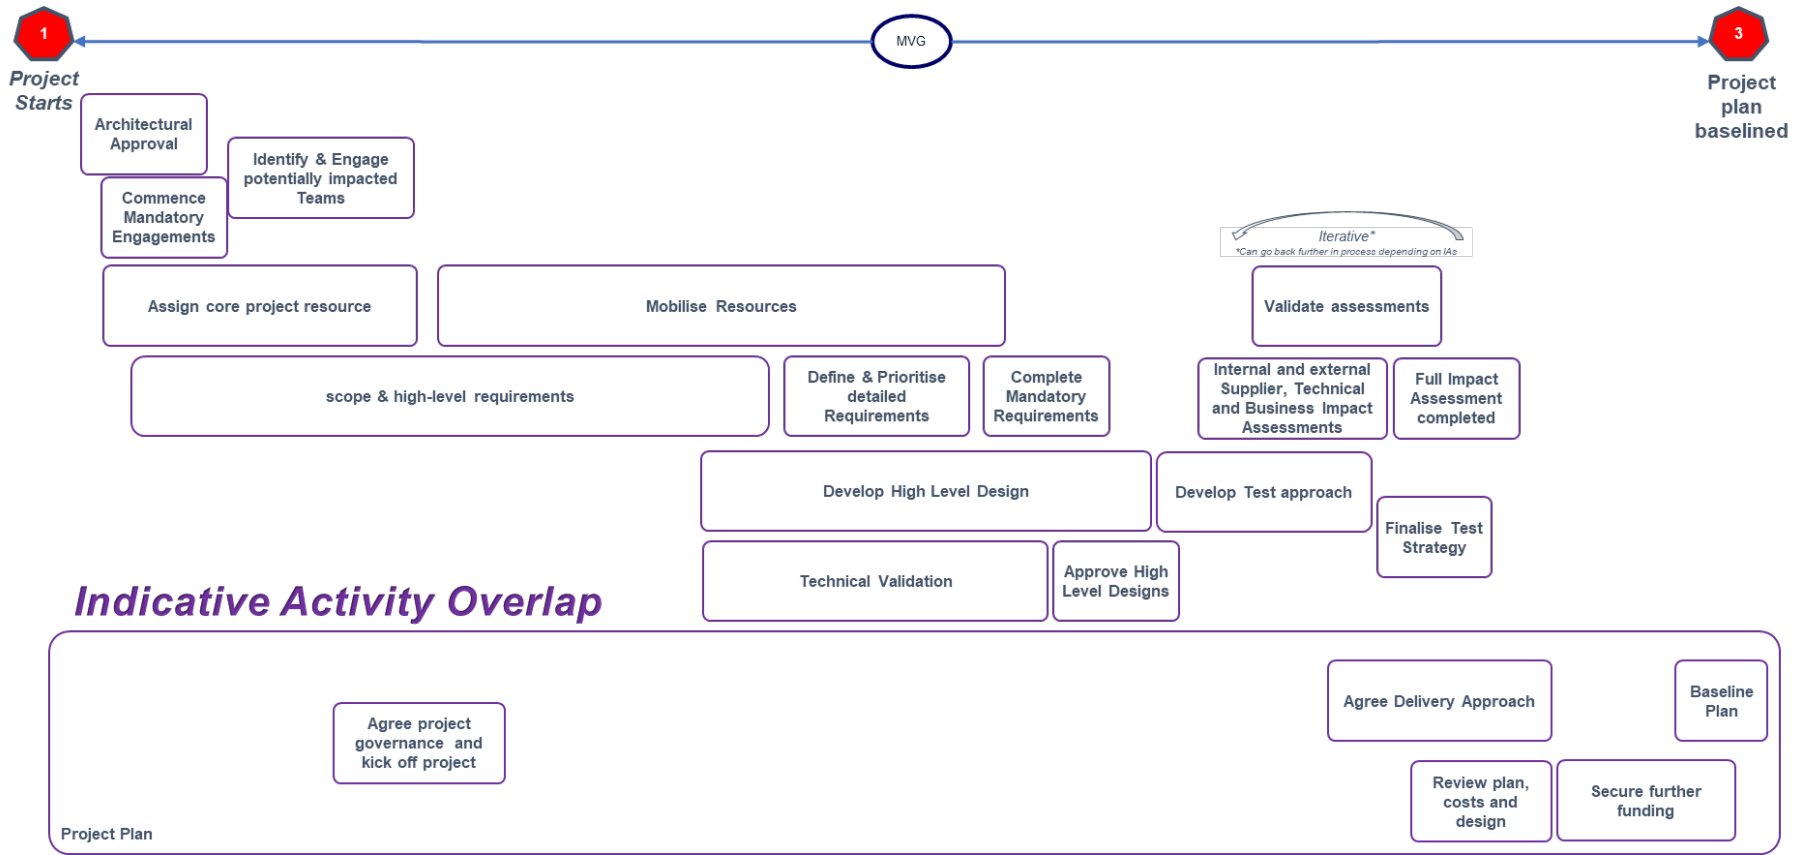

## Combined Framework v1.0

## Current Framework (Individuals & Interactions over Processes & Tools)

# Flexible Key Activities example

# **CI Lessons Learned**

**Formalise VoC and its feedback**

**CI - derived from Q&A, failing fast, VoC**

**Develop Sizing and CI approach as you go**

**Be comfortable with Fail Fast**

**People over process (Culture)**

**Structure the CI - (Jira - Scrum / Kanban / Value Stream)**

**Communicate - use VoC - (you said, we improved)**

**Use as many communications media as you can**

**Create a drumbeat of communicated CI Plans**

**Delivery Essentials not PMO Newsletter**

# Learning

- 1. How creating a common purpose creates the foundations for successful transformation by enabling fast decision making that underpins rapid development and change**
- 2. How company cultures and maturity levels play a key role in the design and roll out of processes and tools**
- 3. The challenges of rolling out change amidst companywide change**
- 4. The safeguards and techniques deployed to ensure a successful launch and continued transformation**
- 5. The first year of our transformation - our Lessons Learned**
