# Engineering a better future for our planet and its people

## Agenda

1. Introductions
2. The Net Zero PMO Concept
3. Menti Poll
4. Panel – Government Property Agency and Decarbonomics
5. Summary

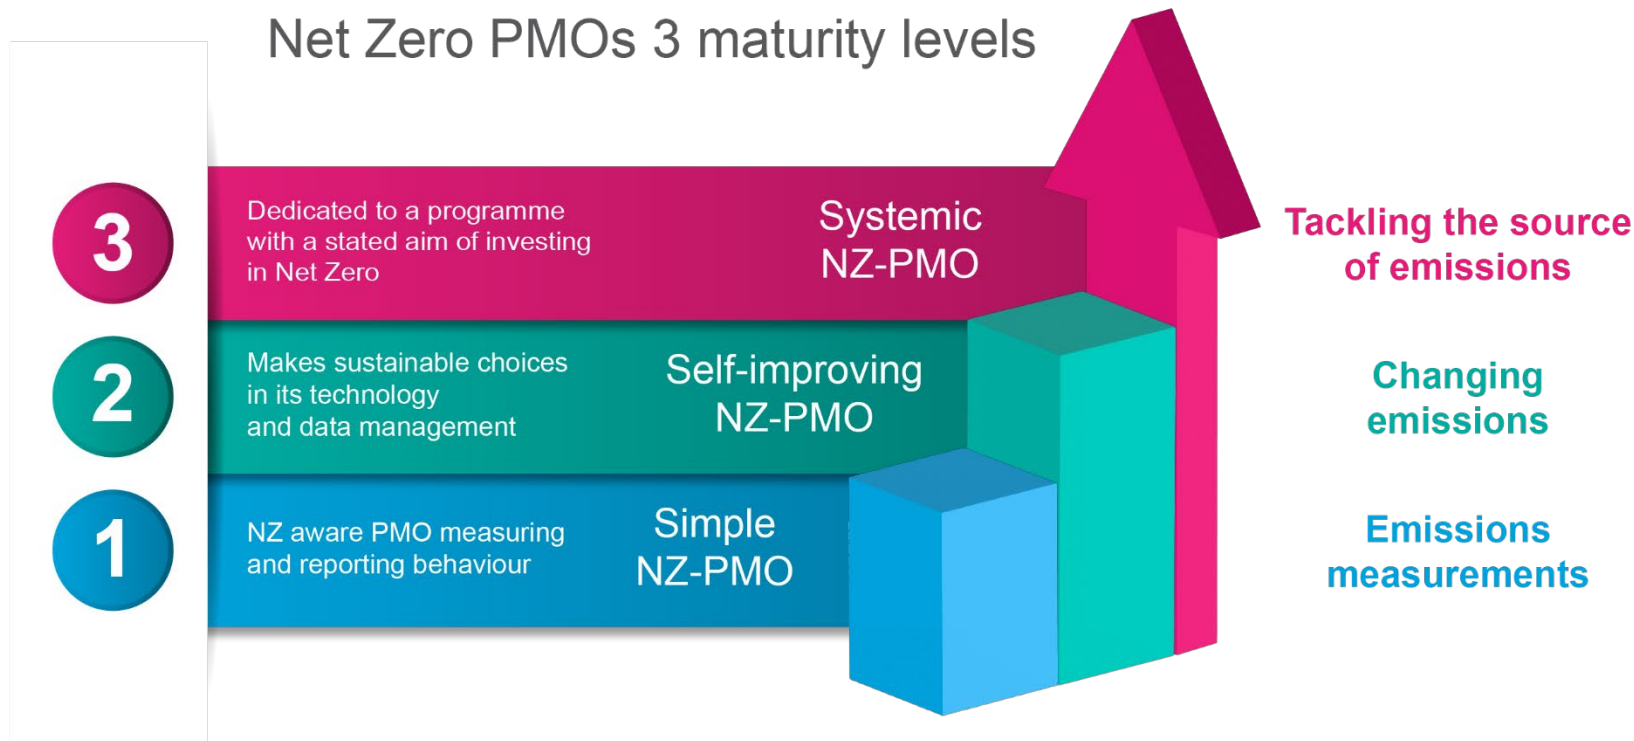

# The Net Zero PMO

P3M perspectives

# The Net Zero PMO

## Net Zero PMOs 3 maturity levels

# The Net Zero PMO

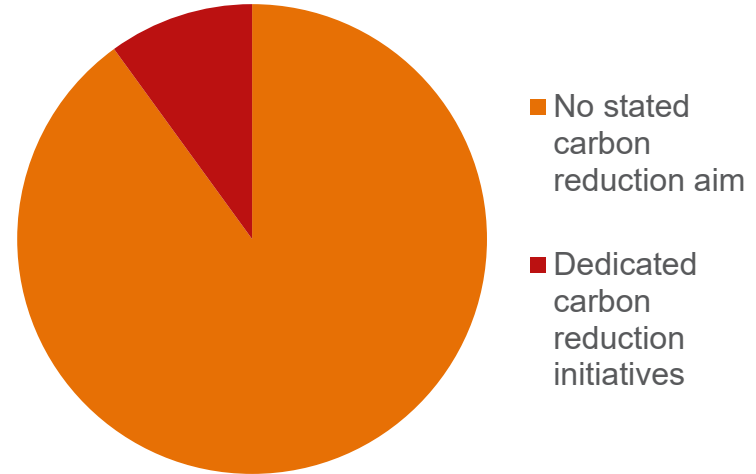

More than simply using PMO for  
carbon reduction programmes

# The Net Zero PMO

How can PMOs have the greatest impact?

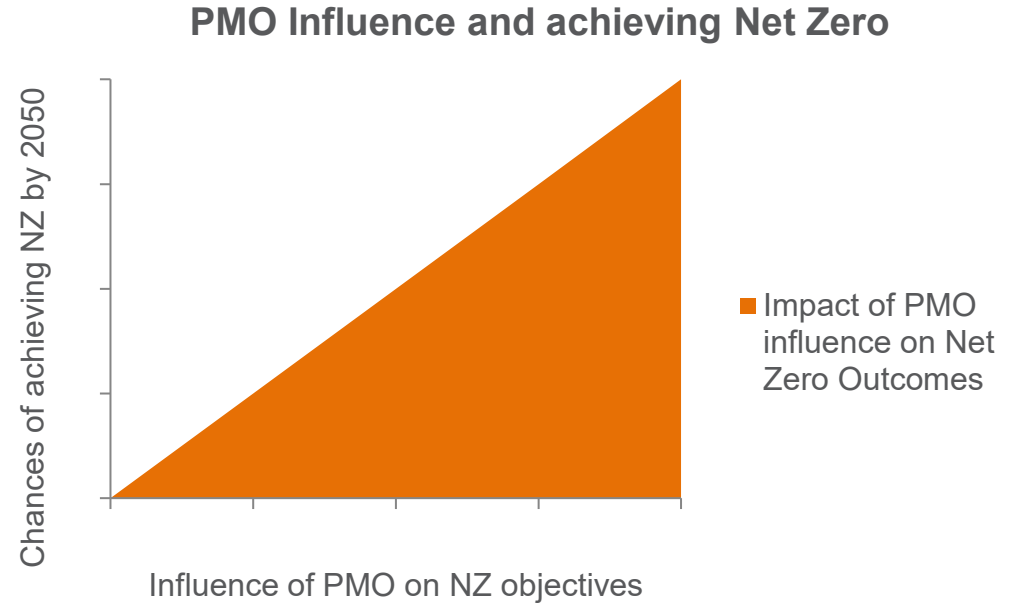

Work to get to Net Zero

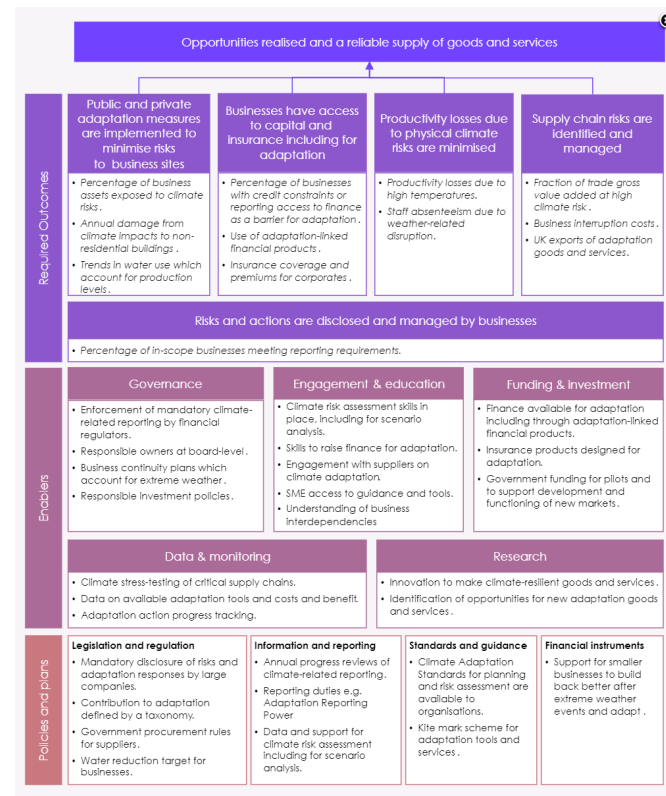

# The Net Zero PMO

How important is the level of influence of the PMO?

# The Net Zero PMO

## Carbon Metrics

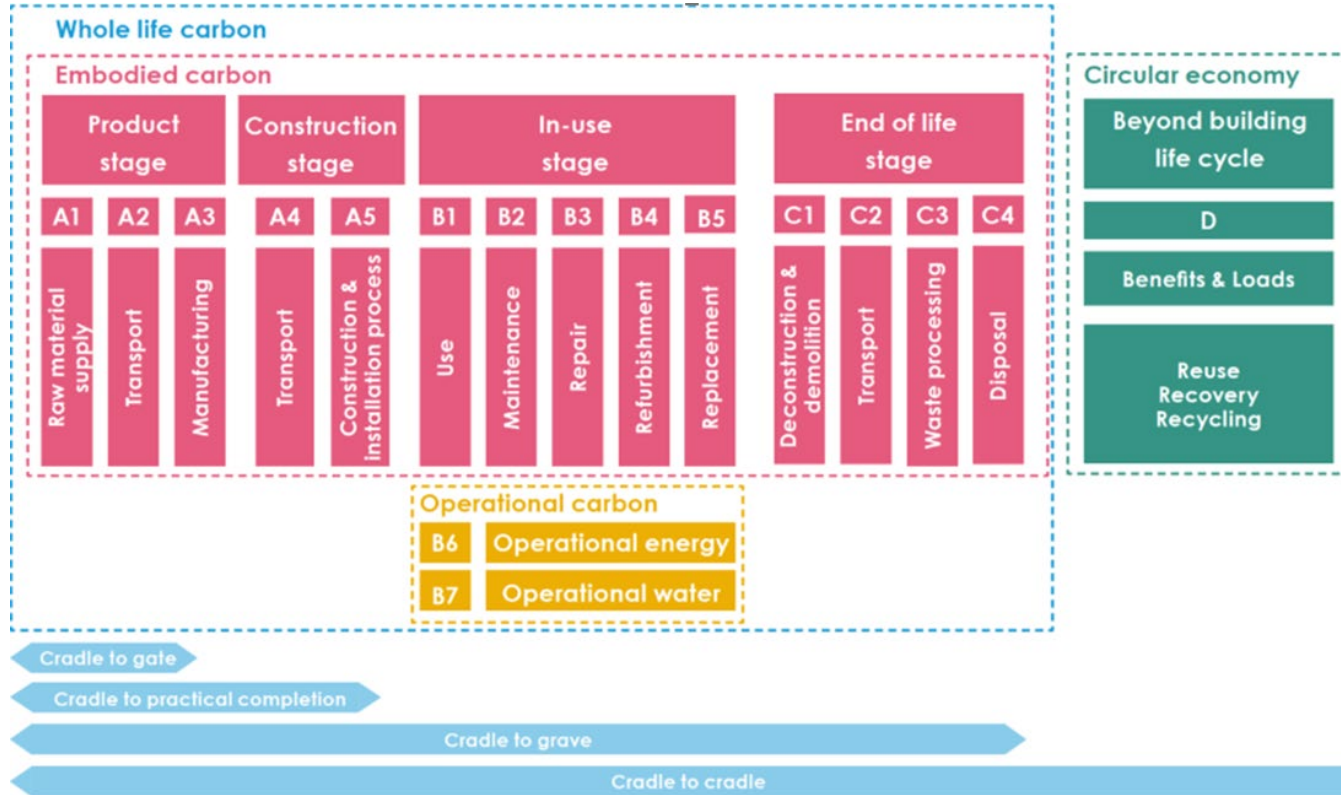

## Climate Change Committee

# The Net Zero PMO

## Carbon related PMO services

# The Net Zero PMO

Decarbonomics™

Decarbonomics™ - Engineering Net Zero

**Decarbonomics**  
Powered by Carbon Data Insights

**Buildings**

## KEY FEATURES

Decarbonomics is an end-to-end service, providing whole life support across three core areas of benchmarking, road mapping and delivery. Our ground breaking service brings together people, data and technology to provide:

- An enterprise-level view of your current carbon baseline and benchmarked performance.
- Robust scenario modelling capability to develop your net zero roadmap.
- Industry leading programme management systems to create cost and programme optimised delivery plans and the ability to track performance.
- Proxy carbon, cost and asset data to fill material data gaps and enable you to move forward quicker where there is a deficiency of data.
- End-to-end expertise and advice on the wide array of interventions and options for optimising your decarbonisation journey.

Industry leading programme management and asset management tools and processes, integrated into an unprecedented decarbonisation platform.

A simple and fully dynamic end-to-end dashboard enabling you to track and drill down on your estates performance at any stage of your journey.

Decarbonomics has also been developed to provide the required information to support the development of robust investment cases to help our clients secure the necessary finances and funding needed to deliver a net zero future.

## CASE HISTORY

 **Government Property Agency**

SNC-Lavalin are the Strategic Net Zero Partner for the UK's Government Property Agency, consisting of a 450 building portfolio, with this work forming the basis of the Decarbonomics service platform.

 **Department for Work & Pensions**

We are piloting Decarbonomics on 850 properties focusing on the decarbonisation of heat as well as lighting, HVAC, BMS and PV.

 **SNC-Lavalin**

We are using Decarbonomics to develop SNCL's costed roadmap for its UK & Europe estate which comprises more than 50 buildings.

We are benchmarking over 200 buildings across 17 complex defence sites in the UK and developing an outline roadmap for a wide range of building interventions in addition to a range of estate wide initiatives including nature-based solutions and emergent technology solutions.

Our team are developing a benchmark and roadmap for a UK university campus more than 50 buildings, focusing on a wide range of building interventions.

Decarbonomics builds on and integrates our deep capability providing professional service support across the whole life cycle of the built environment in the public and private sectors.

# Slido Poll

slido

**Join at [slido.com](https://slido.com)  
#2825275**

① Start presenting to display the joining instructions on this slide.

slido

# Do you or your organisation have a PMO delivering a Net Zero Programme?

① Start presenting to display the poll results on this slide.

slido

**Do you or your  
organisation use a PMO  
to push the Net Zero  
agenda?**

① Start presenting to display the poll results on this slide.

slido

# Do you or your organisation incorporate monitoring of carbon metrics in a PMO?

① Start presenting to display the poll results on this slide.

slido

# **Are you or your organisation thinking about implementing carbon metrics in PMO reporting?**

① Start presenting to display the poll results on this slide.

slido

**Would you be confident  
in explaining how to  
implement carbon  
accounting?**

① Start presenting to display the poll results on this slide.

slido

**Do you have any  
concerns about PMO  
reporting contributing to  
Greenwashing?**

① Start presenting to display the poll results on this slide.

## Our Panel

**Wayne Munro**  
Programme Director  
Government Property Agency  
Net Zero Programme

**Annabel Thorne**  
Head of Sustainability  
Director - Decarbonomics
