

# PMO *Conference* EDINBURGH 2024

**This session will be  
starting shortly**

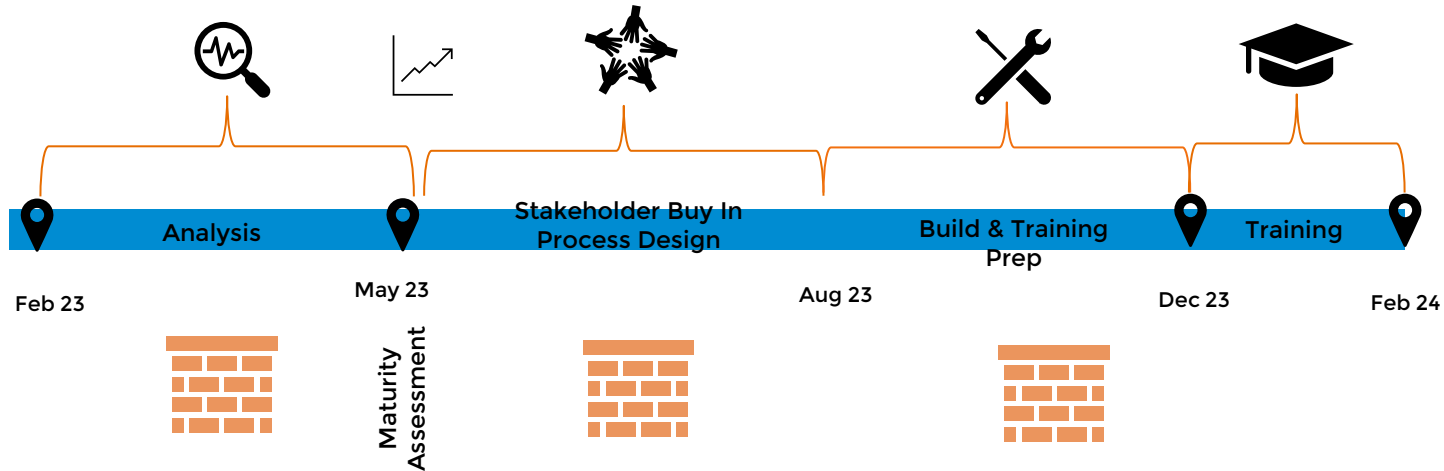

**Please take your seats**

One View  
The Dog: 10

# Our (my) Journey

# Who am I? and who is the dog?

- **Natalie Rickards** – Head of PMO
- **Sysco GB**
  - Brakes – Largest food distributor in the UK
  - Owned By Sysco – largest food service distributor in the world
- **Hendrix** – Head of getting me away from my desk!

## My Challenge

- Implementation of a PMO across all of Sysco GB – with no team!

*You?*

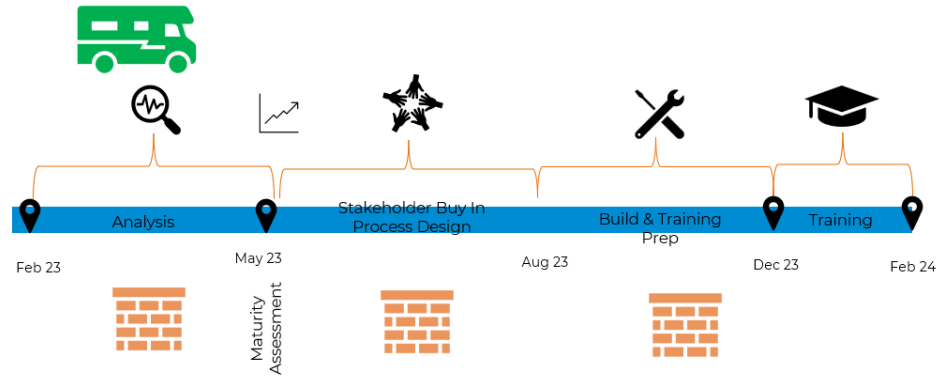

**Stand if you are able – Turn to the person on your left**

- Introduce yourself!
- What are the main challenges have you faced implementing your PMO
- 2 - minute discussion

# Sit down if these are your challenges.....

- Lack of Resources!
- Leadership buy in to PMO!
- Perceived lack of value
- Adoption of change
- There is a lack of data to be an effective PMO

# Analysis

# The Analysis

There was a lot of listening

Survey

Health  
Assessments

# The Distractions

*Can you do a post  
implementation  
review*

*When will we have  
templates?*

*We tried PMO before  
and it didn't work*

*We just need a  
demand process*

# The Problem

## Request

No formal way of  
approving projects  
starting

## Approval

No review of the value of  
the project and how it  
aligns to Strategy

## Cycle

Inconsistency in the  
delivery of projects

## Visibility

Lack visibility of the  
status of the Portfolio

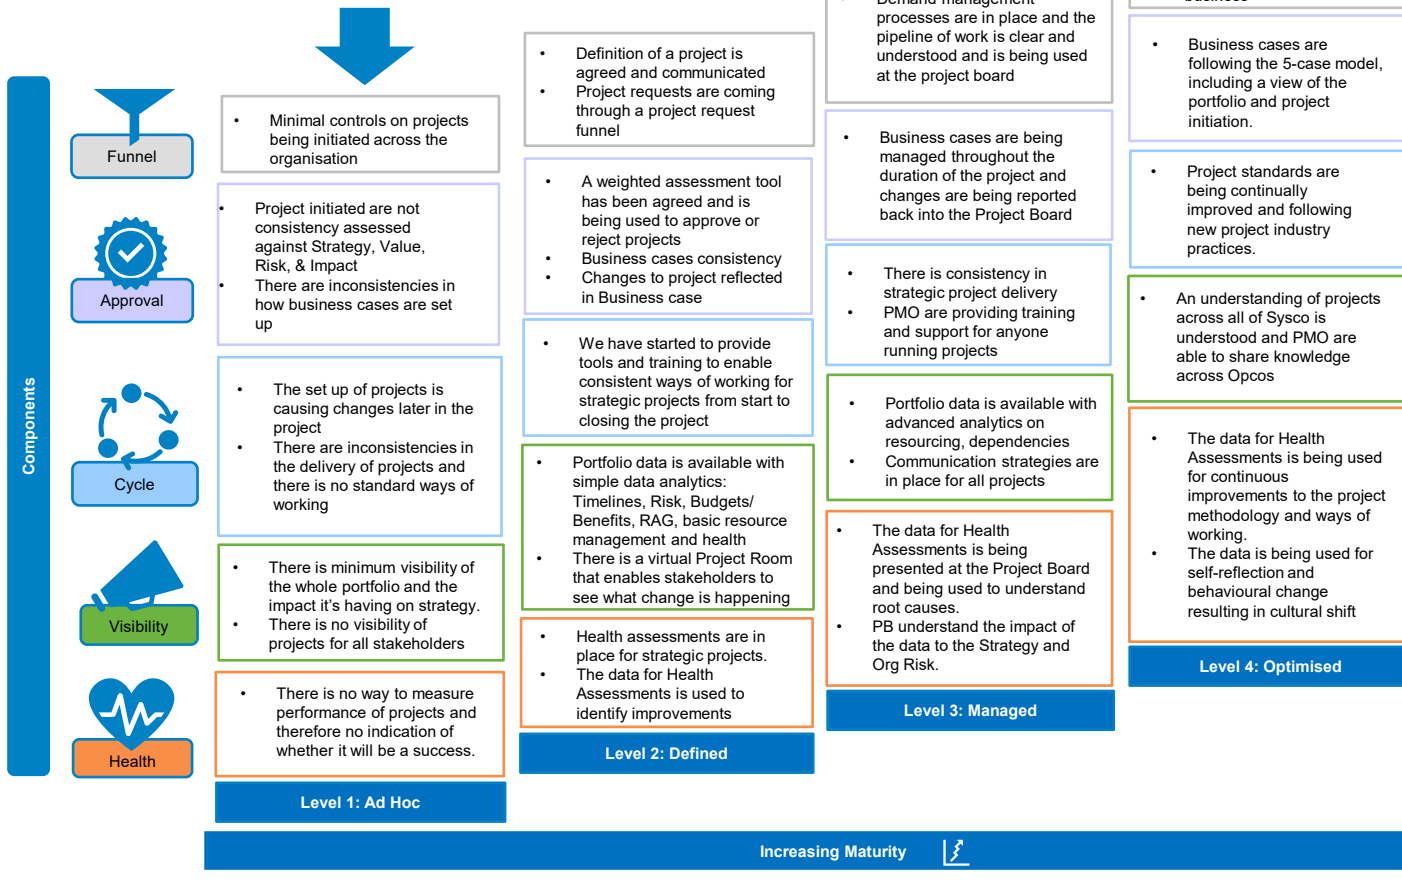

## Health

Lack of understanding of the  
health of projects and how  
that is impacting strategic  
goals

# PMO Maturity Matrix

WE ARE HERE (FY23)

# How do we have enough effect to make noticeable change?

# The spider's web - Phasing

**Consistency** creates visibility by having consistent data points across projects

**Visibility** of the current portfolio allows us align to strategy and support delivery

That would then enable a **demand** process to be implemented, to allow us to .....

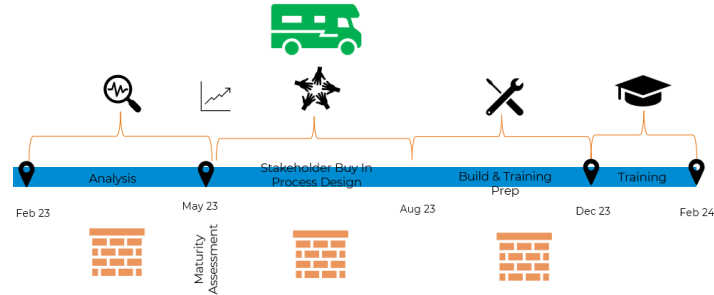

**Approve** it's something we want to do, and create governance

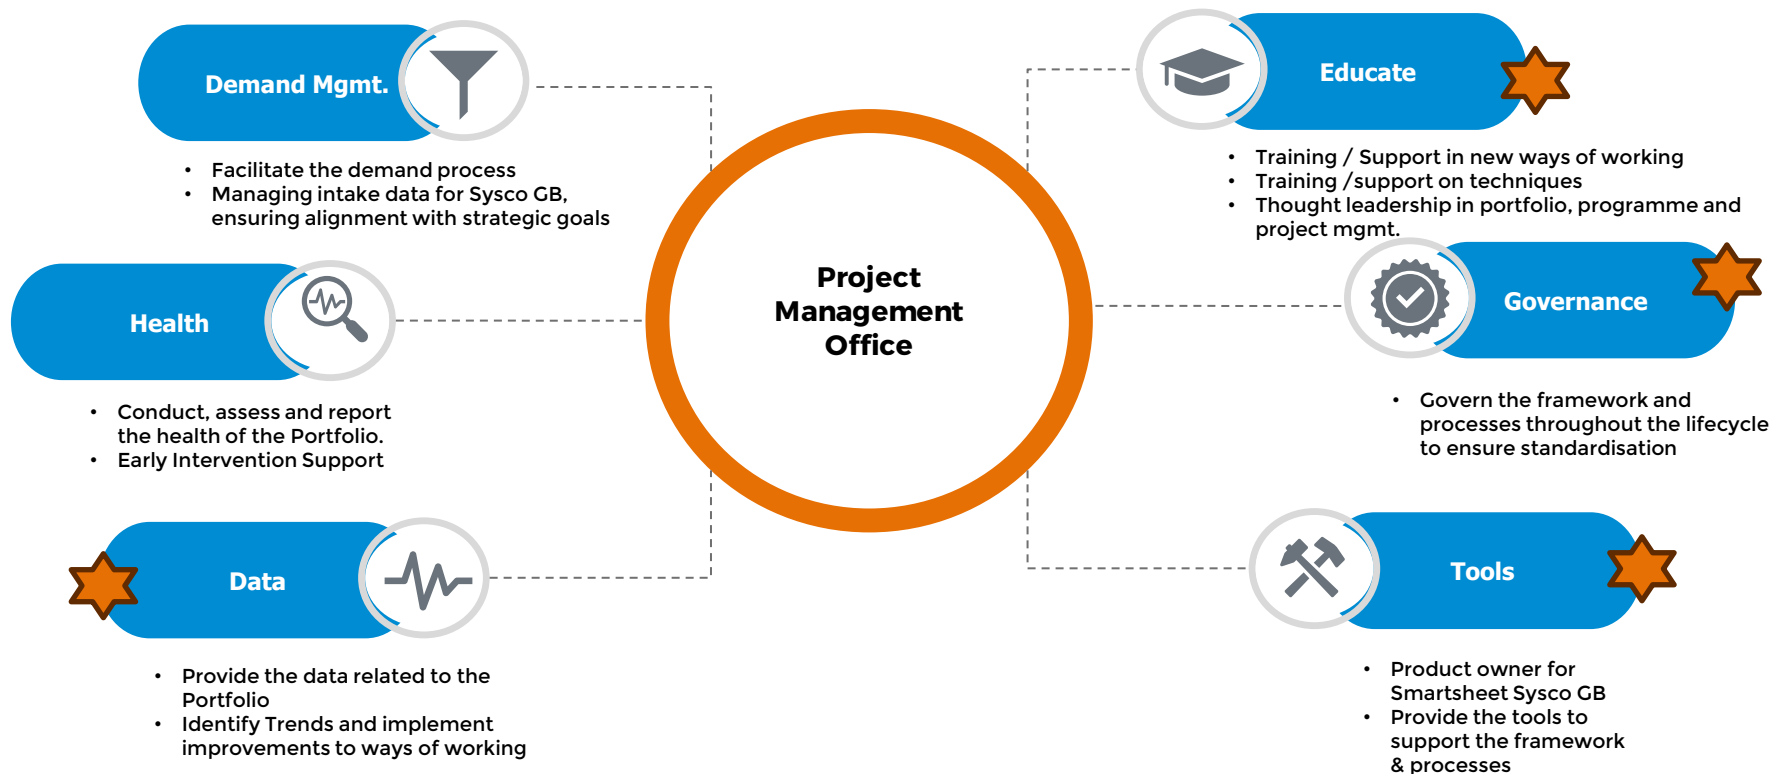

Which then allows us to ensure we are focussing on the right projects and supporting the **health** of those

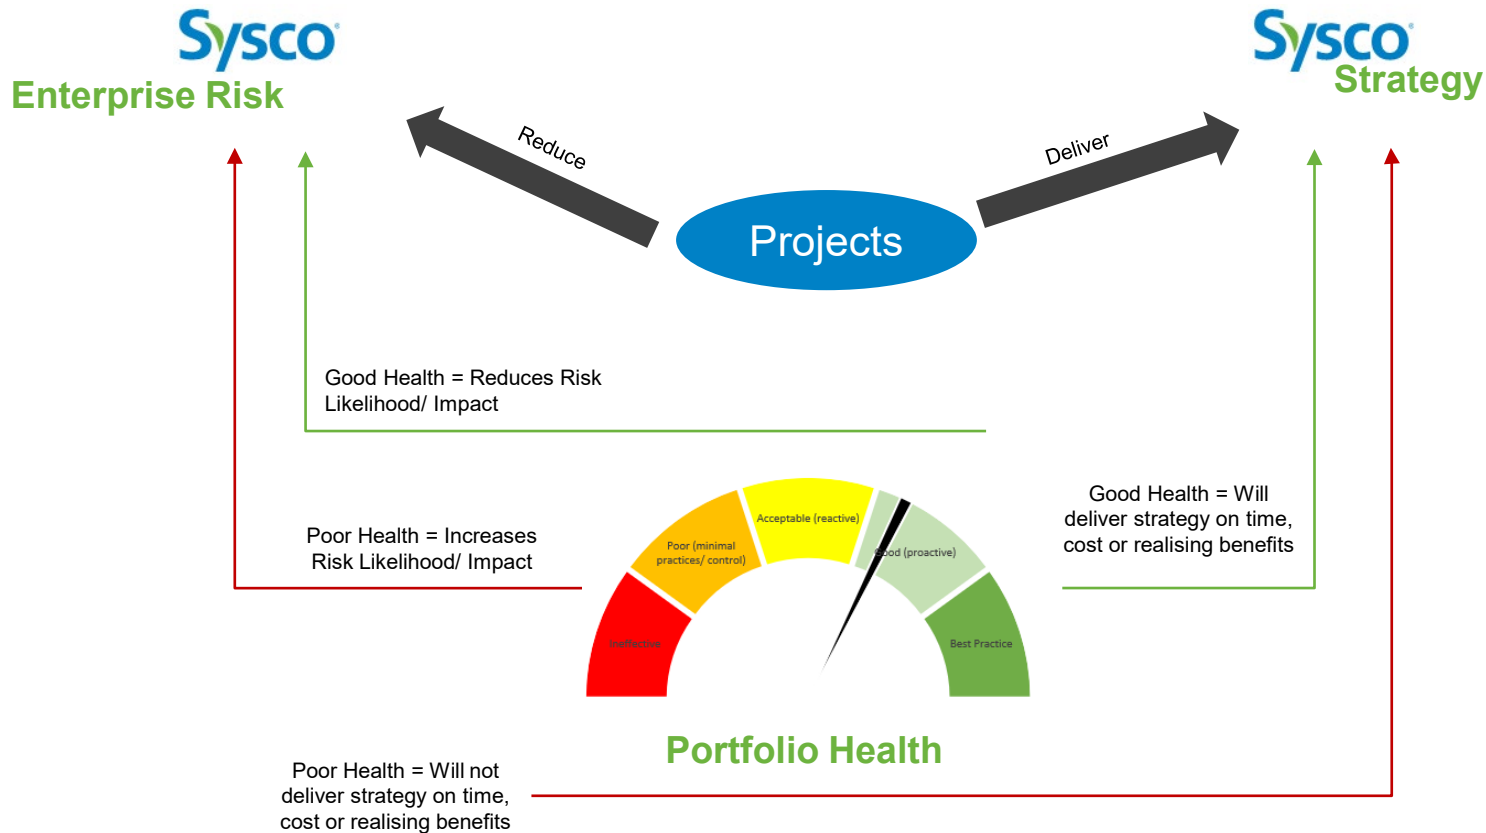

# Stakeholder Management & Process Design

# The role of Sysco GB PMO

# The importance of Data

# Allies

Project Plans

RAGs (Tolerance Based)

Risk & Issue Management

Status Reporting  
& Cadence

Budget Tracking

Change Control

Dashboards

Decision Logs

# The Distractions

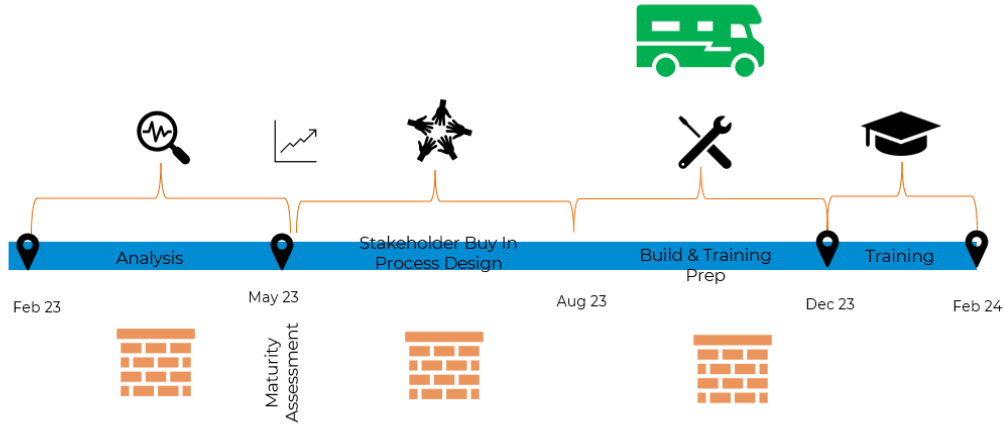

*When can we have a  
template for Lessons  
Learnt?*

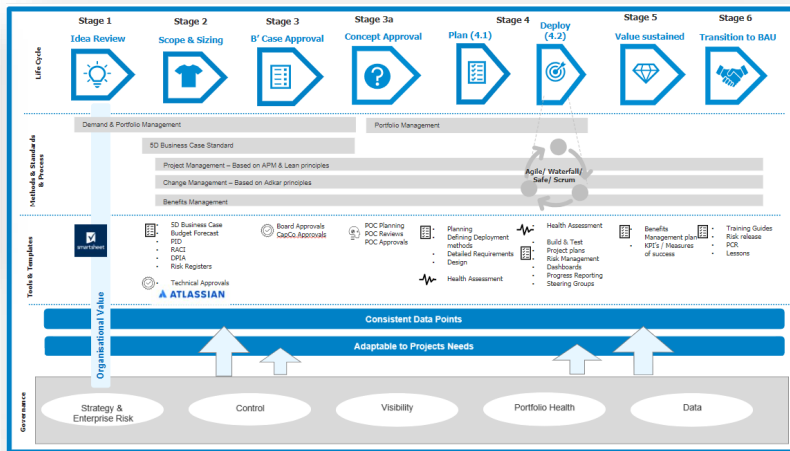

*Can we have a  
resourcing tool?*

*We need this all before  
Christmas.....*

# Build & Training Prep

Paul Nieduszynski

DELIVERING OUR LONG-TERM GROWTH STRATEGY

Stage 1 Idea Review, Stage 2 Scope & Sizing, Stage 3 Business Case Approval, Stage 3a Concept Approval, Stage 4 4.1 Plan, 4.2 Deploy, Stage 5 Value sustained, Stage 6 Transition to BAU

Select each stage below to find out more...

Stage 1 - Idea Review, Stage 2 - Scope & Sizing, Stage 3 - Business Case Approval, Stage 4.1 - Planning, Stage 4.2 Deploy, Stage 5 - Value Sustained, Stage 6 - Transition to BAU

Sysco GB PMO Learning Library

Welcome to the Sysco GB online training pages. We have developed a series of online presentations to provide you with an understanding of the different processes and standards that you should follow if you are managing Projects on behalf of Sysco GB.

Sysco GB Created: 30 days ago

VIEWS: 55

Series 1 - Sysco GB Project Stages

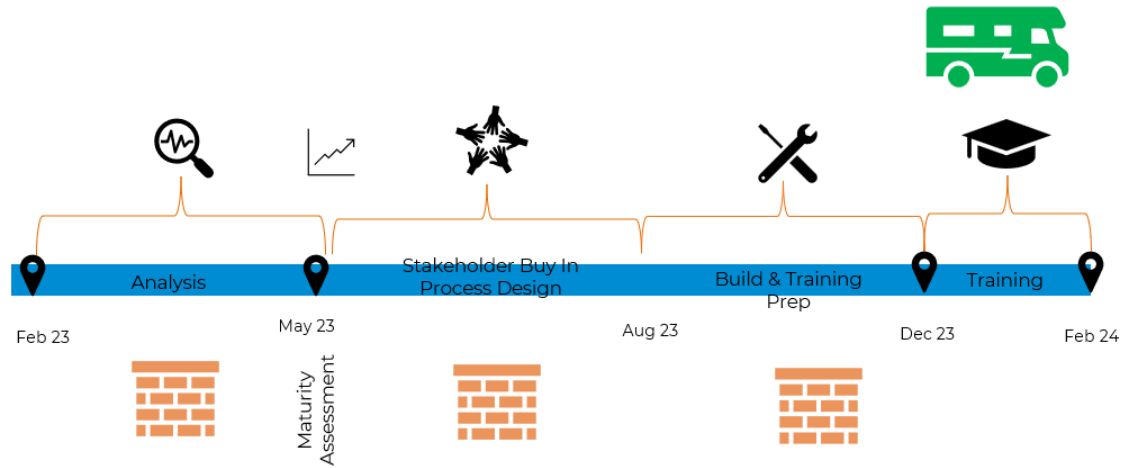

This series guides you through the Sysco GB framework and project stages. The framework provides the parameters, constraints or rules we establish to standardise the management of projects across Sysco GB.

03 Sys Ept - PMO Sysco GB Frameworks, 03 Sys Ept - Stage 1 Idea Review, 03 Sys Ept - Stage 2 Scope & Sizing

# Training

The interaction of the whole day. Having a smaller group meant it was easier to discuss ideas and help each other.

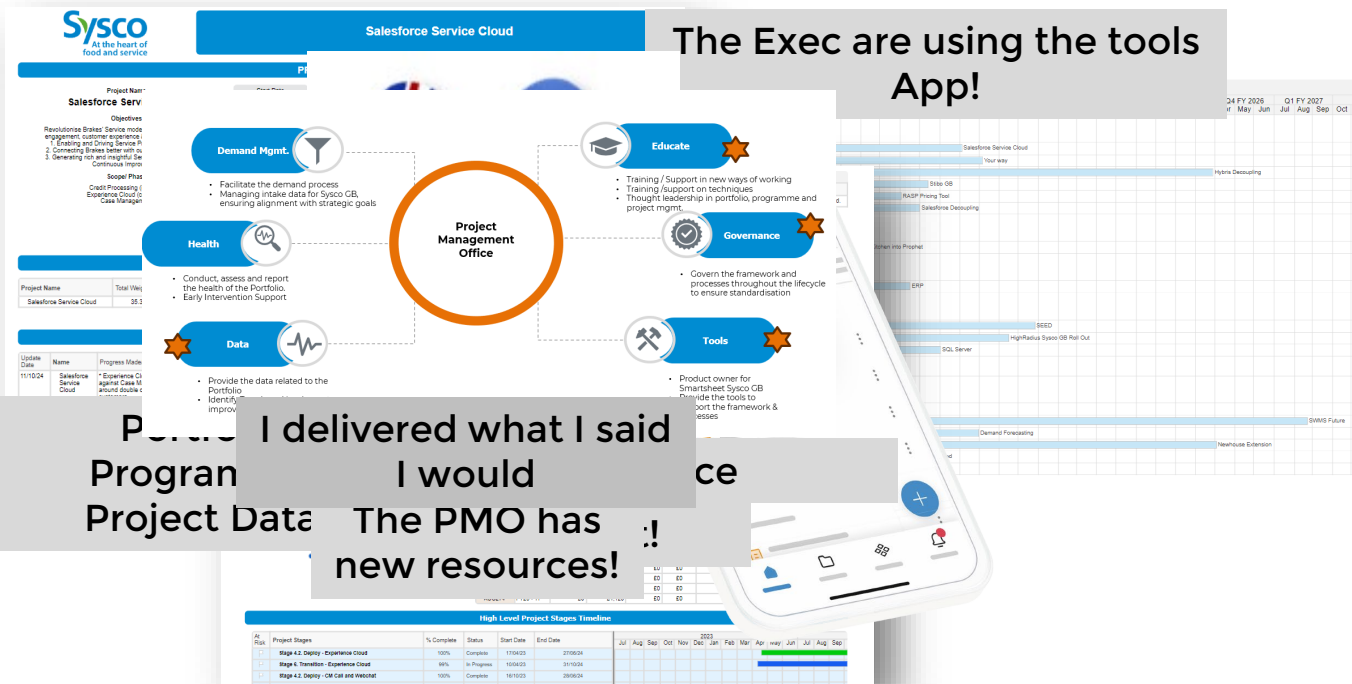

I thought the exam where we had to put the statements under the framework helped me most as I'm a visual learner, and I'm looking forward to using it!

**More biscuits! Seriously that's all I can think of that's under your control, the workshop was great.**

# The Result

# The Result

# The Lessons

- Say NO & stay focussed
- Remember what will make the biggest impact to your maturity
- Build your network
- Talk, Talk, Talk – Listen, Listen, Listen – win the hearts, then minds
- Data has no emotion, use it to create some!

# My biggest lesson....

Thank  
you!
