Welcome to the PMO Conference

Welcome to the 10th PMO Conference! Back in 2015, after a few years of running PMO Flashmob sessions, we thought *“if we try and run a conference, would anyone come?”*

Fortunately, the answer was yes and ever since we’ve worked hard to put on a conference that we would want to attend ourselves! When we look back over the last decade, one thing that remains constant about the conference is that people just enjoy being in the room with other people who **get** PMO. Some leave with a stack of new ideas, others with new contacts – sometimes with a sense of being part of a community and profession – sometimes all of that and more.

Back in 2015, we just wanted to put together a conference that gave PMO professionals a day to themselves - where the sessions all had a PMO focus and, more importantly, gave the stage over to PMO professionals so they could share their stories. We’ve long said that the answers to how we do this thing called PMO don’t lie in the textbooks – it’s in the collective wisdom of people who’ve tried, failed, succeeded, and shared how they did it. That still holds true today, and hopefully for the next decade too.

Many thanks to you for being a part of the 10th anniversary conference, we hope you have a great day!

The PMO Conference London 2025 // Morning Agenda

9:00 - 9:05	<div></div> <div>Welcome Words Hall One</div> <div>Lindsay Scott House of PMO</div>			
9:05 - 10:00	<div></div> <div>Opening Keynote Hall One</div> <div>Reflections and Aspirations - The Past, Present and Future of PMO Laura Barnard, Americo Pinto and Eileen J Roden</div> <div><p>To kick off the 10th anniversary of the PMO Conference in style, we bring together three of the most influential voices in the PMO space over the past decade: Eileen Roden, Laura Barnard, and Americo Pinto.</p><p>United on stage, these influential leaders will deliver a dynamic keynote that reflects on the evolution of PMO and envisions its bold, transformative future.</p><p>Through their unique perspectives and shared passion for PMO, Eileen, Laura, and Americo will dive into what they want to see happen, wish would happen, and dream might happen for PMO. With a format that blends reflection, vision, and inspiration, this session will set the tone for a day of celebration, learning, and forward thinking.</p><p>Expect insights that highlight on the progress made by PMOs over the past decade, the challenges and opportunities of today, and the possibilities for tomorrow. From aligning to organisational strategy to leveraging emerging technologies and strengthening PMO leadership, the conversation will be rich, relatable, and packed with takeaways for PMO professionals at every level.</p><p>This unmissable opening keynote promises to leave you inspired, energised, and ready to embrace the next era of PMO. Join us as we set the stage for a day of celebrating the journey so far and charting the course for what's next.</p></div>			
10:15 - 11:00	Hall One	Hall Two	St Pancras	Battlebridge
Session 1	<div>The PMO Ecosystem - Changing and Evolving to Deliver your Business Needs Libby Stockel</div> <div>To be sustainable, a Portfolio Management Office must be able to evolve and change in response to the delivery and business environment. There is no 'one size fits all' model. Reflective practice is a key attribute for any PMO leader designing their PMO, and we collectively need the confidence to design PMOs with roots in best practices that are the right fit for our organizations at any given point.</div> <div>This presentation will outline AWE's organisational ecosystem for PMOs and discuss how this has evolved in line with the functional and organizational understanding and maturity in Portfolio Management. It will consider what prompts the need for a shift in the PMO model and emphasise the importance of reflective practice for PMO leaders to ensure continuous improvement and adaptability.</div> <div>CS</div>	<div>Implementing a Digital PMO: Strategies, Challenges and Successes Yash Desai and Kashan Ratyal</div> <div>In an era of rapid digital transformation, PMOs must evolve to remain effective. This session explores how Severn Trent Water, in partnership with Movar, successfully developed and implemented a Digital PMO, revolutionising project delivery through data analytics, automation, and AI-driven insights. By integrating Microsoft technologies and cutting-edge reporting solutions, this initiative enhanced project visibility, governance, and decision-making across capital delivery projects.</div> <div>The success of this Digital PMO was recognised with the Global Innovation of the Year award at the Project Controls Expo UK. This session will provide insights into the journey, challenges faced, and the practical strategies that led to the transformation.</div> <div>AI</div>	<div>Change Governance to PMO - How Pets at Home Made it Work Anna Milnes and Niamh King</div> <div>How do you build a PMO that truly enables business change rather than just governing it? That's exactly what the PMO at Pets at Home are focusing on, where their team operates at a portfolio level, driving visibility, consistency, and value across the business.</div> <div>In this engaging session, we will hear about the PMO transformation journey – from getting started with portfolio reporting to embedding a Change Delivery Lifecycle (CDLC) that works for the business, not against it. Sharing the lessons learned from launching a PPM tool, evolving just-enough governance, and tackling resource management in a way that's pragmatic, not prescriptive.</div> <div>Looking to the future, exploring the role of AI in PMO, how Power BI dashboards are changing decision-making, and how they're taking benefits management and sustainability to the next level. Expect practical insights, real-world stories, and honest reflections on what it takes to build a PMO that really adds value.</div> <div>Whether you're setting up a new PMO, driving a maturity journey, or simply looking for inspiration on how to make your PMO a strategic enabler, this is a session you won't want to miss!</div> <div>CS</div>	<div>Cleared for Take-off: Bristol Airport's PMO Transformation Journey with Power Framework PPM Gero Renker, Sarah Landan and Chris Pickard</div> <div>Since its inception in 2020, Bristol Airport's Portfolio Management Office (PMO) has played a pivotal role in overseeing the airport's ambitious £400 million transformation programme where the aim is to enhance customer experience and increase capacity to accommodate 12 million passengers annually.</div> <div>Key projects include the development of a £65 million public transport interchange, improved internal road system and multi-storey car park, set to open in summer 2025, which will feature over 2,000 parking spaces and a glass pedestrian bridge linking the terminal to the car parks.</div> <div>Sarah and Chris will delve into the PMO's evolution, highlighting how the PMO have been instrumental in the successful delivery of projects that support the airport's strategic objectives.</div> <div>The PMO itself has been enabled through the Power Framework PPM solution deployed in Bristol Airport's Microsoft cloud platform. We will tell the story of how this tool has been adopted to great effect, and what lessons have been learned for successful PPM tool implementation.</div> <div>SS</div>
	11:00 - 11:30	<div></div> <div>Morning Coffee</div>		
11:30 - 12:15	Hall One	Hall Two	St Pancras	Battlebridge
Session 2	<div>The Power of the Triple Set: Mindset, Skillset, Toolset for Data-Driven Project Management Dave Turnbull</div> <div>David Turnbull, Enterprise Project Controls Manager from EDF and keymember of the Project Data Analytics Coalition shares how his organisation is reimagining project delivery through a holistic approach focused on mindset, skillset, and toolset. 2023 was the "year of the toolset," where EDF concentrated on building the infrastructure necessary to harness data effectively. 2024 was the "year of the skillset," where EDF is focused on upskilling both seasoned professionals and those already proficient in data analytics. By combining a robust infrastructure with enhanced skills, Turnbull believes the organisation can change the mindset of its employees, ultimately transforming how projects are delivered in 2025.</div> <div>AI</div>	<div>Themes for Success – Universal Lessons in PMO Transformation Mehul Shah</div> <div>Join the Senior PMO Director of Universal Studios Florida on an exhilarating journey through the transformative power of "People, Process, and Technology (PPT)." Drawing inspiration from the creative energy and strategic precision that brings world-famous theme parks to life, this session from Mehul Shah reveals how the right themes—innovation, agility, and value—can revolutionise your PMO.</div> <div>This session is a great opportunity to gain unique industry insights from one of the world's leading entertainment companies and how applying the lessons behind launching blockbuster attractions applies to the building of their world-class PMO.</div> <div>CS</div>	<div>From Stuck to Flow: Navigating People Complexity with Systems Thinking Martin Parr</div> <div>People are our most valuable asset and helping them learn and adapt is the key to getting any change made. Learning is hard when the situation feels like a tangled mess. Systems thinking helps us all to see through complexity, to make sense of what's really going on, and to find leverage for change. Today I will show you how a couple of systems approaches work and how systems thinking offers a powerful way to navigate all six complexity types, especially when people are at the heart of the challenge.</div>	<div>The PMO of Tomorrow: Harnessing AI and Strategic Portfolio Management to Drive Business Outcomes Wanda Marginean and Matt Stevenson</div> <div>Navigating changing technology and processes presents PMO leaders with unique challenges and opportunities. Join us as we explore practical solutions for leveraging decentralized digital tools and generative AI to transform Strategic Portfolio Management. Discover new ways to handle upcoming economic uncertainties, manage diverse tech investments, and close the strategy-to-value gap. Learn to leverage popular project management tools to improve execution, planning, and risk management while blending agile and traditional methodologies for better alignment.</div> <div>GP</div>

The PMO Conference London 2025 //

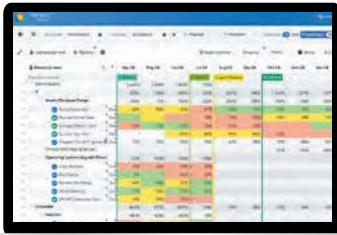

Afternoon Agenda

<p>13:15 - 13:45</p>	<div>  <div> Keynote Hall One </div> </div> <p>From Guide to Great – Making the PMI PMO Practice Guide Work for You Americo Pinto</p> <p>You'll get a fast-track tour of the PMO Value Ring® framework, the Value-Generating Flywheel, and why PMOs need to ditch the one-size-fits-all mindset. Expect takeaways on:</p> <ul style="list-style-type: none"> • Crafting services based on actual customer outcomes • Building momentum with the 10 steps of the value flywheel • And how to shift perception from "cost centre" to "strategic enabler" <p>Perfect for that post-lunch energy boost!</p> <p>GP</p>			
<p>13:55 - 14:40</p>	<p>Hall One</p>	<p>Hall Two</p>	<p>St Pancras</p>	<p>Battlebridge</p>
<p>Session 3</p>	<p>IMPACT-Driven PMOs: How High-Performing PMOs Prove Their Value Laura Barnard</p> <p>Most PMOs find themselves juggling too many projects, constantly putting out fires, and struggling to prove their value to executive leadership. But high-performing PMOs don't work harder—they work smarter by embracing a completely different approach that dispels many of the common PMO myths holding teams back. The IMPACT Engine System changes the game, offering a framework that accelerates results, builds credibility, and delivers measurable business outcomes—without adding complexity or extra work.</p> <p>In this high-impact session, you'll discover how the IMPACT Engine Framework addresses the root causes holding most PMOs back and provides practical steps to own the narrative around your value and drive outcome-focused success. You'll unlock the secrets that successful PMOs have used to fast-track their success by eliminating change resistance, solving the right problems, and creating a continuous value delivery model. Drawing on decades of real-world lessons from PMO transformations globally, you'll see how leaders have transitioned from overworked and overlooked to indispensable business partners driving executive decision-making.</p> <p>GP</p>	<p>The People-Centric PMO: Redefining Roles and Driving Growth Dr. Nick Karamanis, Nesta Shingler and Abi Fielding</p> <p>This session will explore AlphaPlus's innovative approach to building a people-focused PMO. Discover how a commitment to professional development has created a fulfilling work environment and fostered happiness and engagement among team members. Learn how shifting perceptions of the PMO, particularly by integrating early career graduates and professionals, has strengthened succession planning and future-proofed the organisation.</p> <p>Key highlights include AlphaPlus's unique PMO model, featuring the 'player-manager' concept—a hybrid PM/PMO role designed to deliver excellence through collaboration and versatility. Witness how this people-first strategy enabled this small business of just 60 to achieve a threefold growth trajectory, delivering results typically expected from much larger organisations—all without extensive financial investment.</p> <p>This is a story of innovation, empowerment, and high-impact outcomes—proof that a people-centric approach can truly transform a PMO.</p> <p>CS</p>	<p>How Capacity Planning Simplifies Hybrid Portfolio Management Lloyd Norman</p> <p>Coordinating the teams and people needed for simultaneous project, epic, and operational delivery is challenging. This challenge is complicated by disparate planning methods intrinsic to agile, waterfall, and operational delivery methodologies. Holistic capacity planning easily and reliably coordinates teams and people in a hybrid delivery ecosystem. Best capacity planning practices reduce the work of project, product, portfolio, and functional managers. Transparently aligning needed capacity to strategy and roadmap delivery timelines clarifies priorities, improves roadmap predictability, increases talent retention, and reduces delivery risk inherent to hybrid portfolio management.</p> <p>SS</p>	<p>Adapting Skills for the Future: My Journey from Quantity Surveyor to AI Leadership James Garner</p> <p>Change is inevitable, but how we adapt defines our success. In this session, I will take you through my personal journey—from starting as a Quantity Surveyor to becoming Head of AI and Data at Gleds.</p> <p>I will share how I navigated the evolving skills landscape, the barriers I encountered, and the pivotal moments that shaped my career shift. We'll explore the widening skills gap, the transformative impact of AI on organisations, and how companies can proactively upskill their teams to stay ahead. Through real-world case studies, I'll illustrate how AI is reshaping project delivery, PMOs, and the broader construction and consultancy industries. Finally, we'll look at what's next—how rapid technological advancements will redefine project management and what this means for PMO professionals. Whether you're a PMO leader or practitioner, this session will equip you with the insights and strategies needed to future-proof your career in an AI-driven world.</p> <p>AI</p>
<p>14:40 - 15:10</p>	<div>  <div> Afternoon Coffee </div> </div>			
<p>15:10 - 15:55</p>	<p>Hall One</p>	<p>Hall Two</p>	<p>St Pancras</p>	<p>Battlebridge</p>
<p>Session 4</p>	<p>Chaos to Control – Steering the Resource Management Rollercoaster Eileen J Roden</p> <p>Resource management remains one of the biggest challenges for PMOs, with shifting priorities, unforeseen constraints, and competing demands across projects, business as usual, and product development. These factors can turn resource management into a rollercoaster ride for PMOs, delivery teams, and decision-makers alike. But while the ride may be unavoidable, it doesn't have to be chaotic or painful.</p> <p>In this session, we'll share key insights from our latest Inside PMO report, bringing together perspectives from PMO practitioners, industry experts, and research. We'll explore why resource management so often feels out of control—and, more importantly, what can be done about it. By unpacking the emotional, political, and operational complexities, we'll discuss how the PMO can facilitate, challenge, and enable better decision-making to bring greater stability and control to the process.</p> <p>R</p>	<p>Measuring Agile Delivery - How Do You Know You're Winning? John McIntyre</p> <p>Dave's teams use Scrum. Sarah's teams use Kanban. You've heard rumours of someone using SAFe. The leadership team just wants to know if we're launching on time.</p> <p>In enterprises where Agile intertwines with projects, where strategic clashes with tactical, and executives simply want clear answers—what exactly should the PMO measure?</p> <p>Join this session to explore:</p> <ul style="list-style-type: none"> • Different Agile Delivery Models: How to effectively measure Scrum, Kanban, and Scaled Agile. • Navigating Complexity: Metrics to manage and communicate dependencies, risks, and timelines across blended environments. • Strategic Alignment: Connecting tactical Agile delivery with strategic organisational goals and OKRs to enable effective decision making. <p>Learn how your PMO can provide clarity, demonstrate impact, and confidently answer the leadership's most pressing questions.</p> <p>GP</p>	<p>Growth of the Centre of Excellence Sarah Daracott-Hawkins</p> <p>This session focuses on the growth of a PMO Centre of Excellence within the National Fire Chiefs Council (NFCC), drawing on the speaker's experience leading this work during their time with the organisation. The session begins with an overview of the NFCC, highlighting the transformation from its previous state to its current landscape.</p> <p>Through a series of health checks and quality assurance reviews, several key areas for improvement were identified and actioned. A critical step in building delivery capability across the organisation was the introduction of targeted training workshops and masterclasses aimed at developing project and programme management skills. The session explores some of these focus areas, including risk management.</p> <p>Now running their own consultancy, We Love PMO, the speaker shares reflections and best practices from their time at NFCC to help others on similar journeys.</p> <p>GP</p>	<p>How PMOs can Own the Business Strategy through Strategic Portfolio Management Veijo Hytti</p> <p>In this session, we'll explore how Strategic Portfolio Management empowers PMOs to evolve from administrative order-takers into strategic partners and business co-creators.</p> <p>PMOs stuck in old habits will be left behind. Only by ruthlessly prioritizing, tying every investment to real outcomes, and embracing AI-powered decision-making can they break out of the admin box, drive enterprise-wide impact, and lead in a world that won't wait.</p> <p>The future doesn't reward project managers – it rewards strategy owners. Are you ready to lead, or just manage?</p> <p>SS</p>
<p>16:05 - 16:55</p>	<div>  <div> Closing Keynote Hall One </div> </div> <p>The Therapy of Change – How I Need to Change to Facilitate the Best Change Professor Eddie Obeng</p> <p>As we mark the 10th anniversary of the PMO Conference, we're thrilled to welcome the one and only Professor Eddie Obeng to close the day with a truly unique and inspiring keynote. Eddie, known for his engaging style and boundary-pushing ideas, will take us on a journey through "The Therapy of Change" – a session designed to make us rethink how we as PMO professionals can adapt, thrive, and lead in a world of relentless change.</p> <p>Expect a fast-paced, interactive session packed with practical takeaways that touch on everything from making AI work for your PMO to creating a culture where delivery shines. Eddie will help us tackle the big questions: How do we align with our internal customers? How do we grow ourselves while managing our PMO brand? And, most importantly, how do we position the PMO to add real, tangible value in a future that's coming at us faster than ever?</p> <p>This isn't just a keynote – it's a therapy session for the change-makers among us. Eddie's style will have you laughing, thinking, and scribbling down ideas you can't wait to try. Plus, he's leaving us with some goodies: handouts, tools, and pointers to his book All Change!, so the inspiration doesn't stop when the session does.</p> <p>Join us for what promises to be the perfect end to a celebratory day – a session that looks back on what we've achieved and prepares us to leap forward into what's next. Let Eddie Obeng help you find the courage and creativity to embrace change and lead the PMO of the future.</p> <p>TD</p>

Power Up Your PMO

Why **pm3**

PM3 is the outcome-driven, intuitive PPM platform built for clarity, control, and results.

Trusted across government, healthcare, and the wider public sector, PM3 unifies projects, programmes, and portfolios into one intuitive ecosystem—your single source of truth for strategic delivery.

With PM3BI for live insights, PM3Learn for scalable user training, and PM3Time for integrated time and expense tracking, you gain the visibility, consistency, and confidence to deliver what matters—faster, smarter, and with measurable impact.

Key Features

- ✓ Benefits realisation tracking
- ✓ Integration with BI and other tools
- ✓ Agile, Waterfall and hybrid delivery
- ✓ End to end resource Management
- ✓ Fully customisable Reports and Dashboards
- ✓ Deliver and track CIP with the same control and impact as your major projects.

Why Choose Us?

25 Years Experience

Our solutions are designed for Project Managers, by Project Managers

Data Security

Your data is secure through our Cyber Essentials + and ISO27001 accreditation

Trusted Partners

Your dedicated account manager will work alongside you and your team.

Added Value

A complete ecosystem that saves time and money, not just a PPM tool.

Empowering your transformation and unlocking real value through our end-to-end PMOs

We're AtkinsRéalis, a world-class engineering services and nuclear organisation. We connect people, data and technology to transform the world's infrastructure and energy systems.

With a large dedicated PMO practice, we have the expertise you need to make change happen. Whether you're transforming your whole organisation, building your PMO capability, or need support with key elements of your change portfolio, we help you to maximise your investment, and ensure the strategic alignment of your transformational goals to organisational strategy.

Bringing proven expertise and best practice from our work across secure government, defence, law enforcement, critical national infrastructure and other mission-critical environments, we enable you to achieve unparalleled results.

From introducing new digital technologies or automation; to embedding sustainability practices; to using data to evaluate performance and enhance strategic decision-making, we support you to realise transformational benefits.

Concentrate on what counts

Validate Your Business Case

Build a rock solid case, backed by data, and win buy-in faster.

Accelerate Implementation

Fast, frictionless rollout-fully supported by CPS experts.

Sustain & Optimise

24/7 care and optimisation. We keep you running.

HOTPMO Success Hub

Do you know
what's really
happening in your
change portfolio?

Still being seen as
the team that just
chases updates?

What's stopping
your PMO from
being truly
strategic?

We've supported clients such as Avon, PayByPhone and Ocado with their challenges and can help you do the same. Our PMO Success Hub service provides clients with:

- Annual PMO Capability and Alignment Assessment
- Access to On-demand PMO Consultancy
- Unmetered PMO Expert Advice
- Coaching and Development
- Tools and Templates
