Agenda

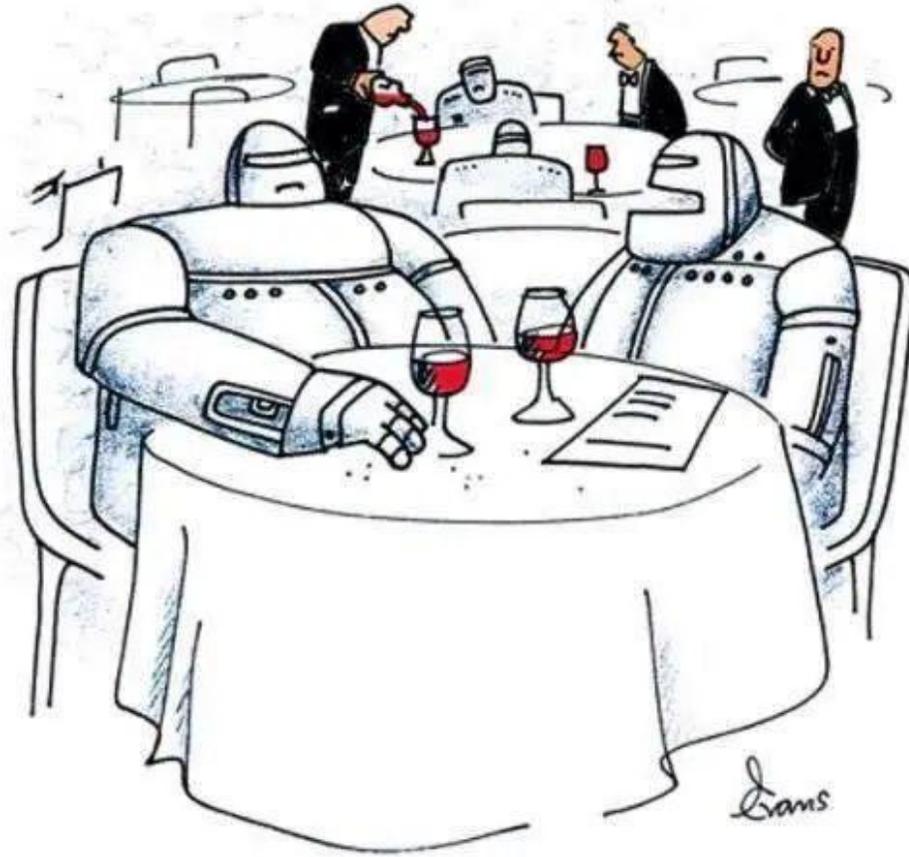

Teaser and
Taster for the
new Ai & PMO
course

The AI-Enabled PMO

From Administrator to Strategic Architect

A Taster Session on Leveraging AI Across the Project Lifecycle

'I can't imagine why they ever thought we'd take their jobs away.'

The PMO Performance Gap and the Necessary Shift

The Gap: Drowning in data, starving for insight.

The Shift: From Reactive Scorekeeper to Proactive Strategist.

Hype vs. Reality: The “PhD Associate”

The Myth

AI replaces the Project Manager.

The Reality

AI is your “PhD Associate.” It handles data processing; you handle leadership.

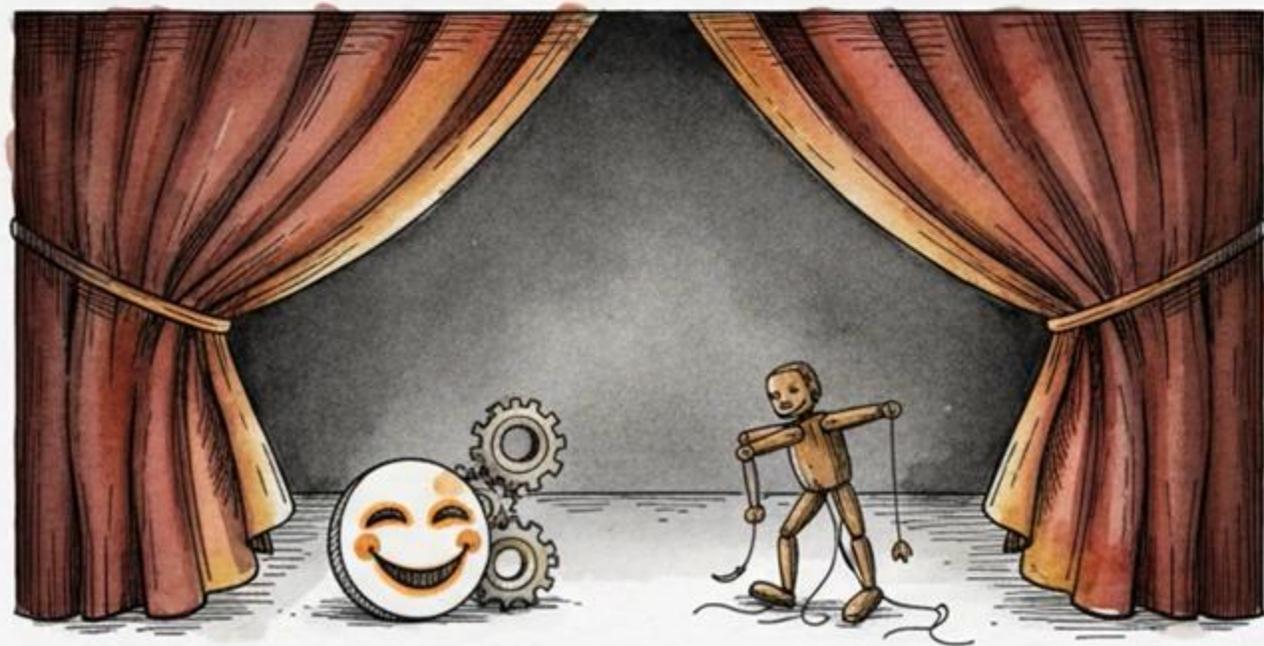

Leadership cannot be automated. Empathy, negotiation, and judgment remain yours.”

The Trap of 'PMO Theatre'

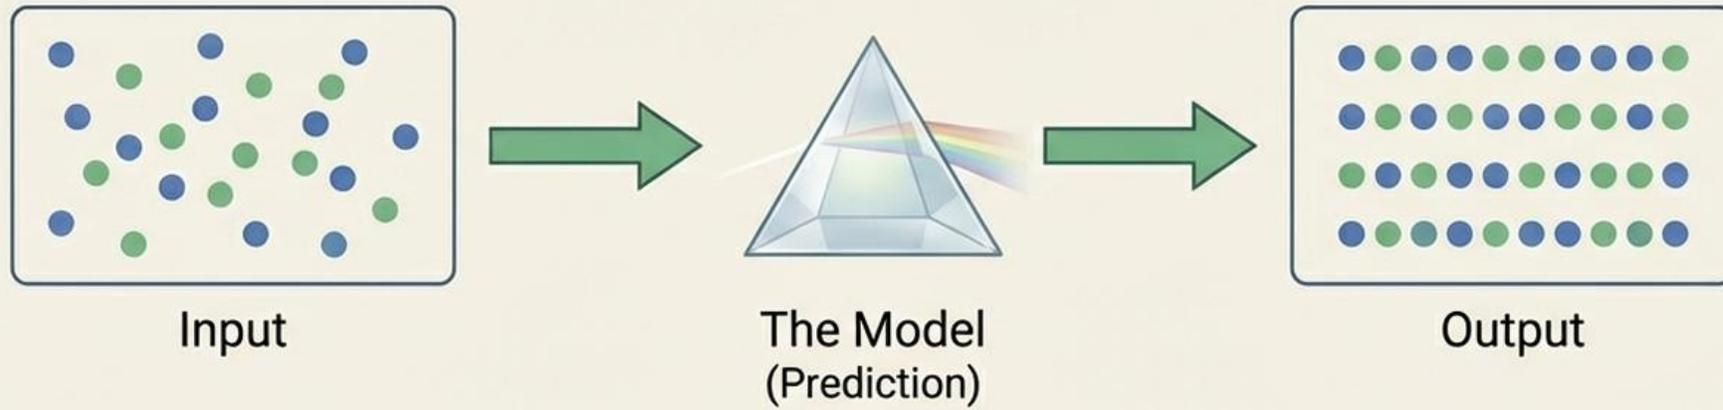

- **Logging vs. Leading:** Recording risks instead of mitigating them.
- **Rubber-Stamping:** Approving weak business cases.
- **The 'Plug and Play' Syndrome:** Mistaking templates for governance.
- **Performative Learning:** Filing lessons away, never to be seen again.

Exposing PMO Theatre

What Are We Actually Talking About?

Summarize
(Meeting Minutes)

Generate
(Drafting PIDs)

Analyze
(Pattern Recognition)

The New PMO Superpower: Prompting

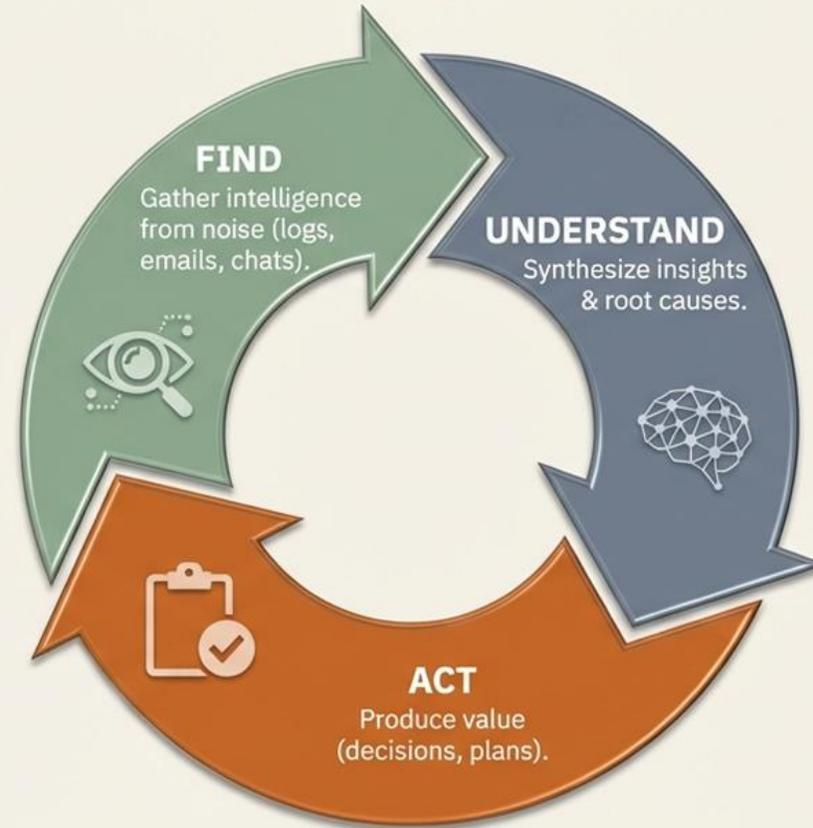

Role + Context + Task + Constraints + Format = High-Value Insight

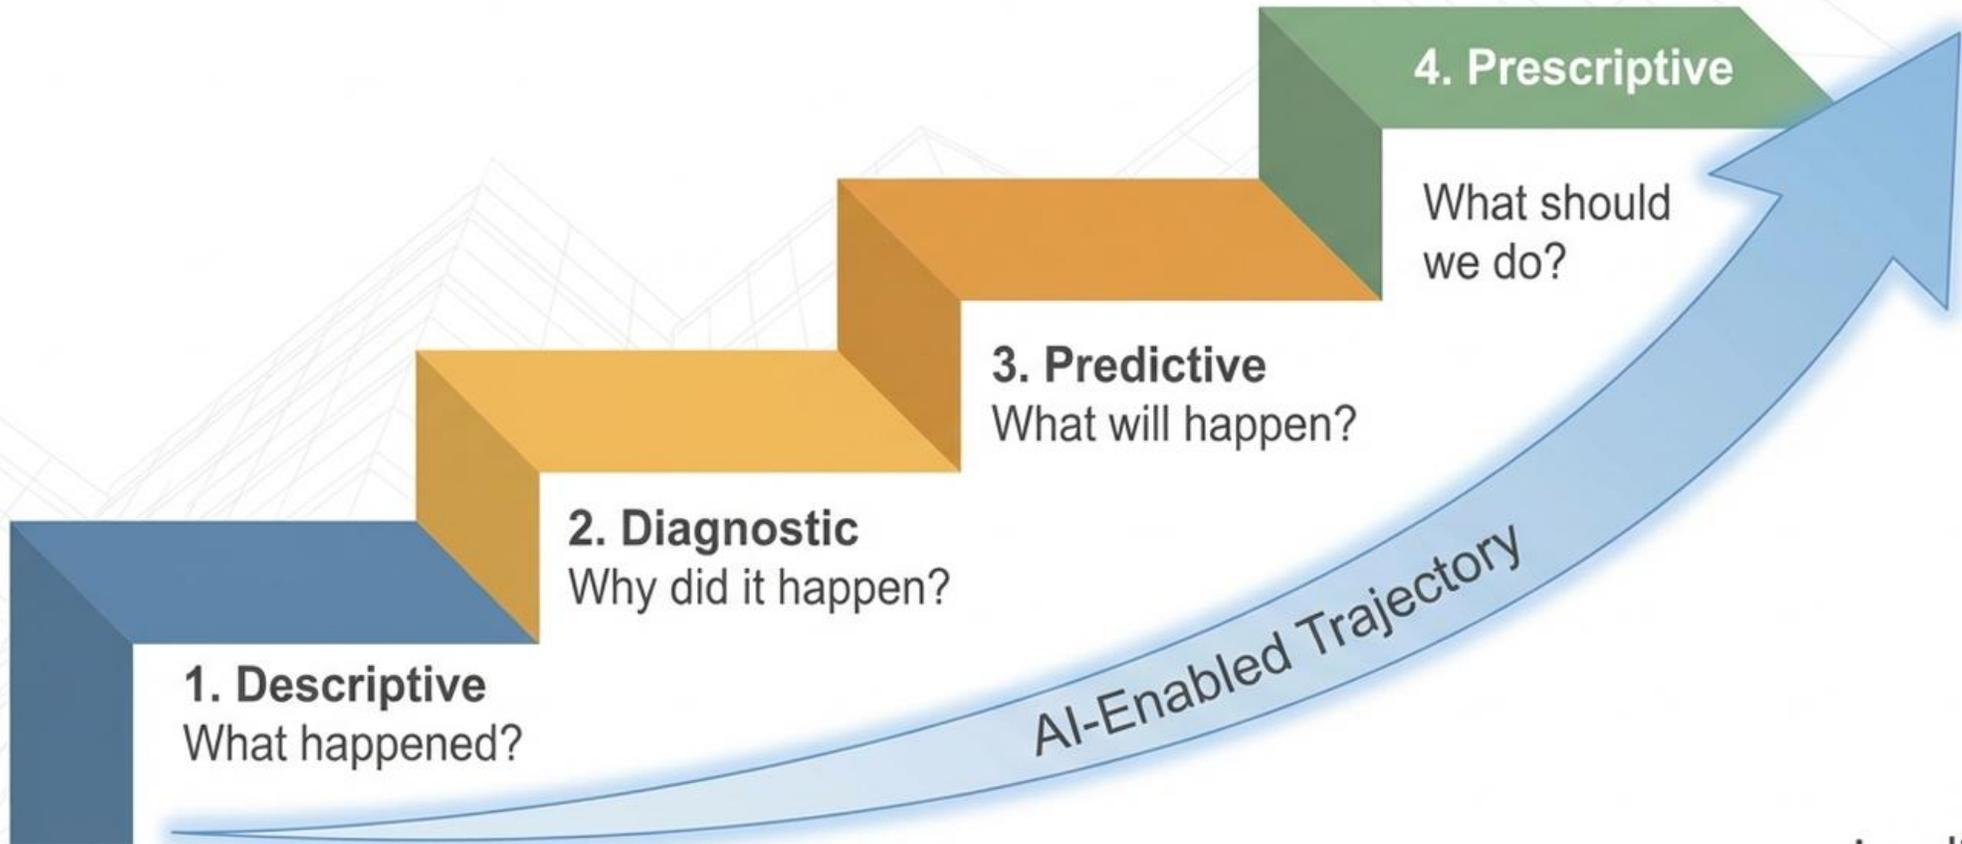

Deconstructed Prompt

Act as a Risk Manager [Role]. Review this transcript [Context].
Identify the top 3 dependency risks [Task]. Be concise [Constraints].
Output as a table [Format].

The Playbook: Find, Understand, Act

Moving Up the Maturity Curve

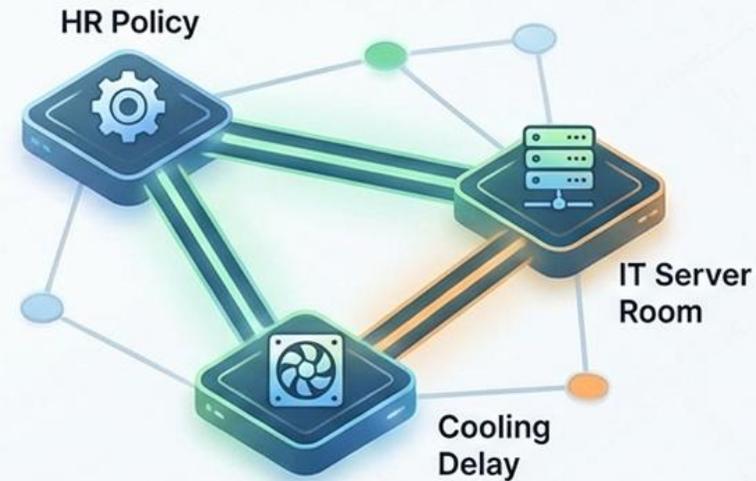

Lifecycle Phase 1: Uncovering Hidden Risks

The Old Way

Risk ID	Description	Owner	Status
1001	Generic boring spreadsheet list	MaroFnee	Plain
1002	Resolut spreadsheet list	Marofinee	Plain
1003	Desk Sharing delay is blocking IT	Importeon	Complete
1004	Desk Sharing delay is blocking	Importeon	Complete
1005	Cooling delay ano development	Importeon	Open
1006	Presecution cooling requirements	Important	Complete
1007	Commetoal mok management	Importeon	Complete
1008	Misk readsheet list	Importeon	Plain
1009	Desk Sharing delay is blocking	Importeon	Complete
1020	Conwrn/reci unnermarzation list	MaroRnee	Plain
1021	Cahsumperation raxxions	tunerRena	Plain
1022	Cooling delay model	Importeon	Complete
1024	Cooling delay management	Importeon	Open
1025	Cooling delay in requirements	Airyol.Lst	Complete
1006	Cooling management	Puol Lisn	Complete
1001	Accurary cooling delay	Inporfrena	Row
1202	Know xzum design requirement	linoorteon	Plain
1203	Desk Sharing developer	Kabofren	Complete
1204	Cooling delay beachr/list	LmorRook	Row
1205	Cooling delay of requirements	Developer	Complete

The AI Way: Thematic Clustering

Insight: HR's 'Desk Sharing' delay is blocking IT's cooling requirements.

Lifecycle Phase 2: Execution & Reporting

DECISION LATENCY

14 Days

Decision Latency: Floor Plan Approval

Critical Path Impact: High

The Old Way tracks status (**Green**).
The AI Way tracks inaction (**Red**).

A decision delayed is a deadline missed.

Lifecycle Phase 3: Strategic Portfolio Prioritization

	Project Name	Strategic Alignment Score
1	Cloud Migration	95%
2	New CRM System	90%
3	Market Expansion Initiative	85%
4	Supply Chain Optimization	75%
5	Website Redesign	50%
6	Internal Portal Update	30%
7	Legacy System Maintenance	10%

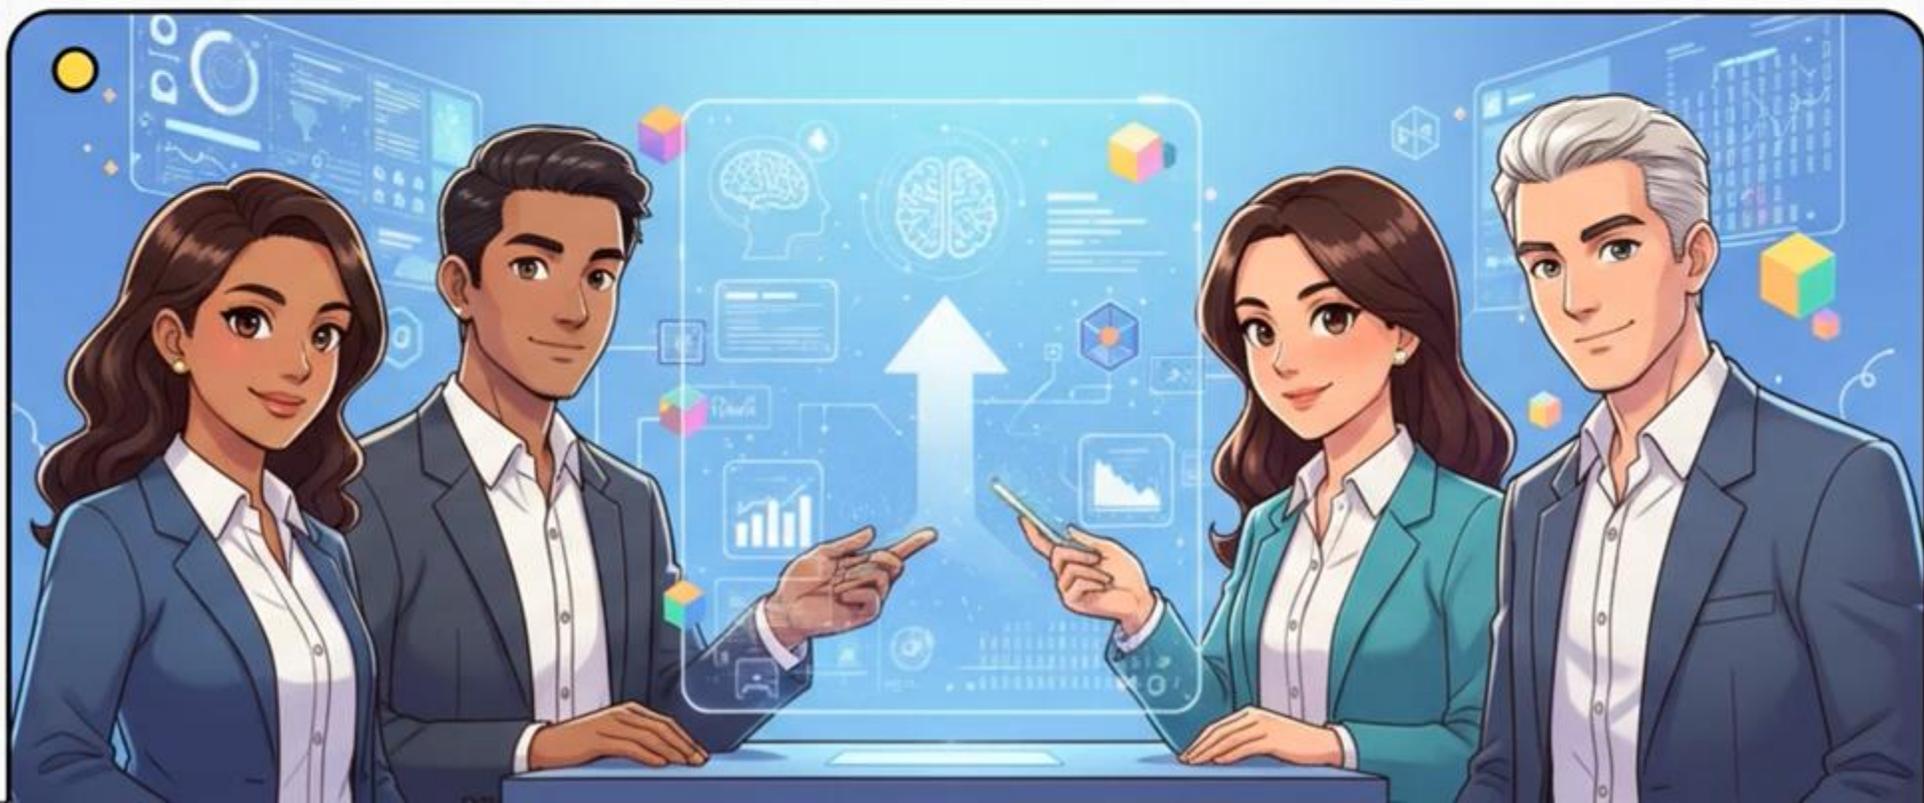

Scoring based on real-time alignment with "Market Expansion" goals.

Removing the "Loudest Voice" bias from the room.

Case Study

The AI-Powered PMO

Navigating the Manhattan Move: Your AI-Powered PMO Journey

Legacy PMO

AI-Powered PMO

Augmented Intelligence
Stakeholder Engagement & Strategic Judgment

The AI Playbook (Find, Understand, Act)

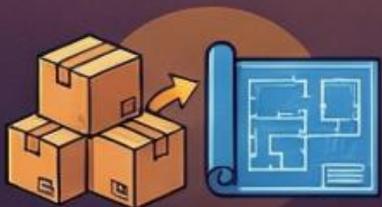

Find:
Synthesize the Fragmented
AI pulls real-time status from Jira, Slack, and financial data into one dashboard.

Understand:
Surface Hidden Risks
AI identifies "trend breaks," like a 22-week cooling unit delay, before milestones are missed.

Act:
Move from "Theatre" to Truth
Framing high-stakes decisions for the CEO instead of just reporting "Green" status.

The Manhattan Mission (Project Skyline)

The 6-Month Relocation Challenge
Moving 250 employees into a flagship facility while cutting facility overhead by 15%

Avoiding the "Plug and Play" Trap
Moving beyond scattered spreadsheets and verbal requirements to a unified, data-driven strategy.

Comparing AI Insights vs. Manual Reporting

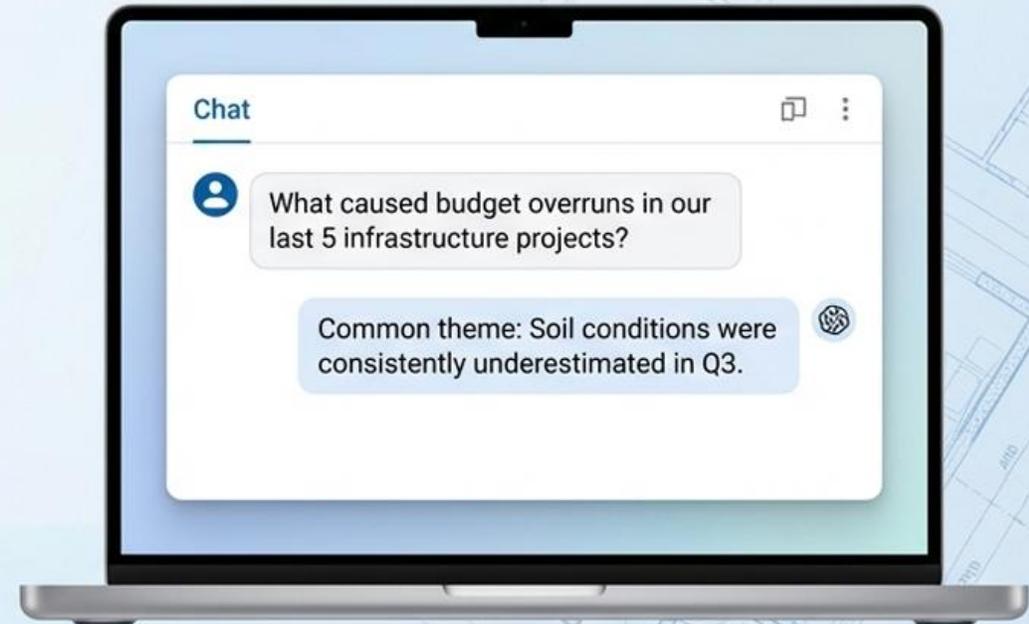

Metric Type	Legacy "Scorekeeper"	AI-Powered "Architect"
KPI Nature	Lagging (What happened?)	Leading (What will happen?)
Data Focus	Manual Tallying & Admin	Pattern Recognition & Analysis
Outcome	Reporting the Past	Predicting the Future

Knowledge Management: Organizational Wisdom

The Graveyard

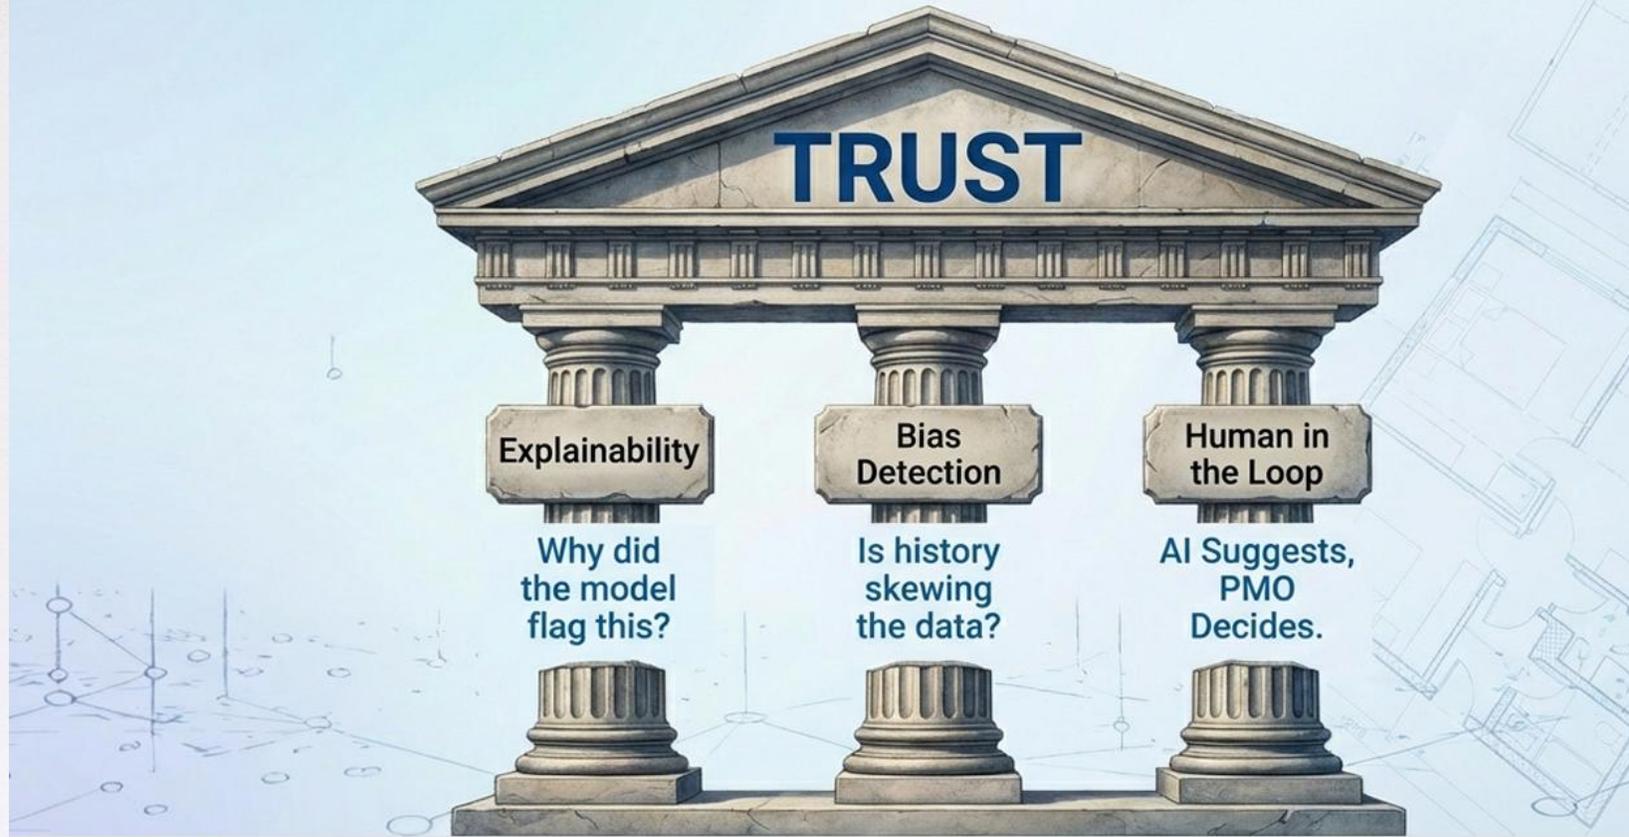

Interactive Knowledge Base

The Foundation of Trust: AI Governance

Adoption Roadmap: How to Start

1. Literacy

Train the team,
don't ban the tools.

2. Pilot

Pick one low-risk
process.

3. Audit

Clean data &
workflows.

4. Scale

Predictive KPIs.
